ECZEMA CAN BE CURED.

The Most Agonizing, Itching, Burning and Bleeding Eczema Cured.

Eczema in its worst stages. A raw sore from head to feet. Hair gone. Doctors and hospitals fail. Tried everything. Cured by the Cuticura Remedies for $6.

I am cured of a loathsome disease, eczema, in its worst stage. I tried different doctors and hospitals, but all to no purpose. The disease covered my whole body from the top of my head to the soles of my feet. My hair all came out, leaving me a complete raw sore. After trying everything, I heard of your CUTICURA REMEDIES, and after using three bottles of CUTICURA RESOLVENT, with CUTICURA and CUTICURA SOAP, I find myself cured at the cost of about $6. I would not be without the CUTICURA REMEDIES in my house, as I find them useful in many cases, and I think they are the only skin and blood medicines.

ISAAC H. GERMAN, Wurtsboro, N. Y.

A Most Wonderful Cure.

I have had a most wonderful cure of salt rheum (Eczema). For five years I have suffered with this disease. I had it on my face, arms and hands. I was unable to do anything whatever with my hands for over two years. I tried hundreds of remedies, and not one had the least effect. The doctor said my case was incurable. I saw your advertisement and concluded to try the CUTICURA REMEDIES; and incredible as it may seem, after using one box of CUTICURA, and two cakes of CUTICURA SOAP, and two bottles of CUTICURA RESOLVENT, I find I am entirely cured. Those who think this letter exaggerated can come and see me for themselves.

GRACE P. HARKHAM, Belle River, Ontario.

Cuticura Remedies

Cure every species of torturing, humiliating, itching, burning, scaly, and pimply diseases of the skin, scalp, and blood, with loss of hair, and all humors, blotches, eruptions, sores, scales, and crusts, when physicians and all other remedies fail.

Sold everywhere. Price, Cuticura, 50c; Soap, 25c; Resolvent, $1. Prepared by the POTTER DRUG & CHEMICAL CO., Boston, Mass.

Send for "How to Cure Skin Diseases." 64 pages, 50 illustrations and 100 testimonials.

PIMPLES, black-heads, red, rough, chapped and oily skin prevented by CUTICURA SOAP.

MUSCULAR STRAINS

And pains, backache, weak kidneys, rheumatism and chest pains relieved in one minute by the Cuticura Anti-Pain Plaster. The first and only instantaneous pain-killing plaster.

MR. BOOTH IS BETTER.

His Prostration Due to Excessive Cigar Smoking.

HE MAY FILL HIS ENGAGEMENTS.

But His Tenure of Life Will Be Exceedingly Uncertain—He is Taken to New York and Quiet Prescribed.

ROCHESTER, N. Y., April 4.—The condition of Booth is much improved. He arose and shortly thereafter was visited by Dr. Sumner, who found him able to speak plainly. Booth breakfasted in his room.

Dr. Sumner was interviewed and said: "Booth is feeling a great deal better. I did not consider his condition last night alarming. I found that he had sustained a slight shock of paralysis which prevented the power of speech, also a paralysis of the left side. I thought at first the attack would pass away in a few minutes. His condition indeed was pitiful as he lay there in the dressing room, looking appealingly at Barrett and myself, and unable to speak a word. I think with a rest of a week or ten days, he will be able to keep his engagements. Last night's attack, however, is an indication of what is bound to come. I think within a few years Booth will suffer a final attack."

Booth's manager, Arthur B. Chase, said: "I have no doubt the immediate cause of his attack was excessive cigar smoking. Booth smokes twenty strong cigars a day, and frequently uses a pipe. I think he will smoke less in the future."

Booth, accompanied by a valet, left this morning for New York. In reply to an inquiry from Detroit, he instructed his manager to say that he would keep his engagement in that city week after next.

Barrett has determined to keep the Booth-Barrett engagements. Lawrence Hanly will probably take Booth's part.

MR. BOOTH IN NEW YORK.

NEW YORK, April 4.—Edwin Booth, with his valet, reached the city at 7:30 to-night. Mr. Booth's physician met him at the depot with a carriage. Booth was in good spirits, though a little weak, and did not seem to feel the long ride from Rochester.

The doctor said, after examining the great tragedian, that he had suffered a partial stroke of paralysis, which was undoubtedly due to excessive smoking. He directed the patient to remain indoors and to get quiet and rest for a few days. He thought Mr. Booth would be able to resume his engagement.

WILL NOT PLAY IN DETROIT.

DETROIT, April 4.—The statement that Booth would play here is an error. Manager Chase telegraphs that Barrett only will be here.

A STRANGE COINCIDENCE.

Fatality of Mary Anderson's Break-Down and Booth's Sudden Illness.

SAN FRANCISCO, April 4.—The serious illness of Edwin Booth, following so close upon the sudden break-down of Mary Anderson, has almost the appearance of fatality. The matter is of special importance to San Francisco, not only because this was one of Mr. Booth's ranch strongholds, but because he was to open the new California theater on May 18. It was arranged that Booth and Barrett were to bring out their entire spectacular production of "The Merchant of Venice," and give the new house a brilliant start, following with their repertoire.

Should Mr. Booth's illness be serious, it will place Mr. Hayman in a bad position, as the house is almost ready and his lease begins very shortly.

Curiously enough, Mary Anderson's break-down seriously affected him also, as he had engaged to open the Grand opera house after the renovations proposed with her production of "A Winter's Tale."

A RAILROAD IN TROUBLE.

A Canadian Road Being Tried Before the Interstate Commission.

WASHINGTON, April 4.—The Interstate commerce commission to-day began the hearing in the case of the Grand Trunk Railroad Company of Canada, upon a charge of violating the Interstate commerce law by granting a rebate on traffic taken from points in the United States to points in Canada, and by charging less than the published rates on such shipments. The information upon which the citation was issued was, at least in part, furnished by the Michigan Central.

Attorney Pard, for the Michigan Central, said that in correspondence between Ledyard and the officials of the Grand Trunk, now before the commissioners, it was freely admitted that the company charged large shippers of coal and coke from Buffalo and Black Rock a rate considerably less than its published rate, which he held to be a direct violation of the Interstate law.

Attorney Kerchner, for the Grand Trunk, denied that any rebates had been allowed shippers on business originating in the United States.

The speaker added that special rates, however, had been made with the receivers of coal in Canada, which were in some cases less than the regular tariff rates. He stated that these special rates were plainly stated in contracts made with the shippers. Kerchner contended that this traffic from a point in the United States to a point in Canada did not come within the control or jurisdiction of the interstate commerce commission. The interstate commerce act says the provisions of the act shall apply "to any common carrier engaged in transportation from any place in the United States to an adjacent foreign country," and he contended that the proper interpretation of the meaning of the words would be to the "border of an adjacent foreign country," and not into "that foreign country." Kerchner insisted that it was not within the jurisdiction of congress to regulate commerce into another country. It might be very proper, he thought, to regulate traffic from a point in the United States through a foreign country to another point in the United States, or from one state to another, but not into foreign countries. He asked ten days to file a printed brief, which was granted.

SOUTHERN REPUBLICANS.

They Are Besieging the Departments to Turn the Rascally Democrats Out.

WASHINGTON, April 4.—A large delegation of Southern republicans is in Washington, making the most ardent efforts possible to secure changes in the list of officeholders. They do not actually demand that the democratic postmasters shall be turned out, except in instances where they have taken an offensive part in elections, but they are laying siege upon the attorney general, and ask that judges, district attorneys, marshals and special agents be removed at once. They say that if these offices are put in the hands of republicans before the next session of the federal courts begin, the penitentiaries will be filled with the scoundrels who have interfered with the freedom of the ballot, and who have been counting republicans out of office for years.

Attorney-General Miller says that he will lay the proposition before the cabinet for instructions.

THE RUSH OF OFFICE-SEEKERS.

WASHINGTON, April 4.—The rush of office-seekers and their friends to the White House to-day exceeded the limit, and many failed to see the president. Among the first callers was Attorney-General Miller, who remained but a short time. Next came Senator Hiscock with a delegation of New Yorkers, relative to local offices. Senator Spooner with a Wisconsin delegation, Congressman Coleman with a Louisiana delegation, and Brower with a North Carolina delegation followed in the order named, besides numerous other callers.

LEAVING WASHINGTON.

Republican Senators and Congressmen Glad of a Rest From Their Official Duties.

WASHINGTON, April 4.—The republican senators and congressmen are rapidly leaving the city, some for their homes, while others are going abroad, and still others are on committees which are to junket over the country for investigation purposes. All of the old men in congress are heartily tired of their public work. They have been in Washington almost continually since November a year ago, and their duties have been of the most exacting character.

Most of the republicans are leaving to return here from time to time during the summer, and fully expect congress to be called in extra session in October. All of the candidates for the speakership of the Fifty-first congress say that there will be an extra session of congress in October.

THE RECENT HURRICANE.

A Circular Issued by the Hydrographic Office Asking Information.

WASHINGTON, April 4.—Lieutenant George L. Dyer, in charge of the hydrographic office of the navy department, has issued the following circular, asking for information with regard to the recent hurricane in the South Pacific ocean.

The recent wrecks and loss of lives in the harbor at Apia, the Samoan islands, have strongly emphasized the importance of collecting and publishing as much information as possible relative to the meteorology of the Pacific ocean. It is the intention of this office to commence the publication at an early date of a marine pilot chart of the North and South Pacific oceans, similar in general plan to the pilot chart of the North Atlantic ocean. It is earnestly requested that reliable information relative to hurricanes in the Pacific, especially the one about Samoa March 15 and 16, be forwarded to this office, or one of its branch offices, or to any United States consul for transmission to Washington. The officers in charge of the branch hydrographic offices will give this circular as wide a publicity as possible and make every effort to collect data."

WASHINGTON NEWS ITEMS.

Pension Decisions Reversed.

WASHINGTON, April 4.—Assistant Secretary Bussey has made a new decision on the application of John P. Davis for a dependent father's pension on account of the death of his son Samuel, formerly of the Tenth Ohio volunteers. In 1861 the soldier was regimental hospital nurse at Crab Orchard, Kentucky. One night, feeling ill, he took a swallow of tincture of aconite, mistaking it for brandy. He nearly died at the time, and never afterwards recovered. He died from disease of the lungs and all of the vital organs, produced by the poison. The former decision, which said that the soldier's death was not the result of any disability incurred in line of duty, but the result of his own indiscretion, is reversed, and the application allowed.

The former rejection of the application of Wm. L. Warnick, late private of the First Pennsylvania light artillery, and John Decenzy, late of the Twelfth Illinois volunteers, were also reversed and the claims allowed.

National Bank Statistics.

WASHINGTON, April 4.—The controller of currency has issued a statement showing the condition of the national banks in the United States on February 26, the number of banks—3,170—being a net gain of about 100 in the last year. The resources are $2,837,406,223 93, of which loans and discounts aggregated over half, and specie on hand amounted to $382,284,508. Of liabilities, capital stock amounted to $676,569,235 70; the surplus, $192,458,759 90; individual deposits, $1,854,975,535 80, and dividends unpaid $3,8,706 87.

Lincoln Accepts the English Mission.

WASHINGTON, April 4.—Robert T. Lincoln called upon the president and Secretary Blaine to-day and formally accepted the English mission. He will sail for England about the 15th of May.

ANARCHIST FIRE BUGS.

Their Methods of Fleecing Jersey City Insurance Companies.

JERSEY CITY, April 4.—Bernard Blume, the leader of a gang of fire bugs who have been fleecing the insurance companies, was arrested in this city. The method of the gang was to rent a store, put in a small stock and obtain a heavy insurance. When preparations were made for the incendiary blaze a lamp would be broken. Near it were placed bladders filled with benzine. Around the bladders was a circle of gunpowder. A slow fuse was used to ignite the powder, which exploded the bladders, and, like a flash, the place would be ablaze, leaving no trace of the incendiary work except a broken lamp to deceive the insurance people. The occupants of the store would be absent, attending a social gathering at the home of one of the other conspirators, to prove an alibi. Where Blume was located, between the mattresses there were found twenty-two bladders. The gang are anarchists and belong to the Chicago band.

The men were arraigned in Brooklyn to-day. They pleaded not guilty, and were remanded without bail until Monday. The men were very nervous while in court.

Information about these men was given Justice Naegr by a man named Frederick Schweitfeiger, of Brooklyn, who admitted having been a member of the gang. The justice at first did not believe the story, but when he learned the facts and how preparations to burn a house in Harrison, a suburb of Newark, N. J., last evening, he telegraphed the Newark police. A dispatch from Newark stated that a train of powder, etc., had been found at the house referred to.

THE BLAZING PRAIRIES.

Dakota Sends Sad Tales of Death and Desolation.

MANY PEOPLE LEFT HOMELESS.

The Usual Means of Staying the Fiery Hurricane Powerless in Many Cases—A Terrific Wind-Storm Adds to the Destruction.

MITCHELL, Dak., April 4.—Nobody but a man who has stood before a prairie fire and tried to stay its awful rush and roar when it was fanned by fresh wind can appreciate its almost irresistible force. The fires that have brought so much loss and suffering to Southeastern Dakota in the last few days were practically irresistible. The flames in some instances leaped 100 feet of plowed ground and rushed away again on their career of destruction. All ordinary precautions were in vain.

The spring has been very dry and the top of the ground has been dusty or baked, and an extremely high wind prevailed during the fires. Under these conditions, wherever the fire touched the grass, it burst out with a flash almost like that of powder, and shot away across the prairie like an arrow, its course ever widening. To extinguish it by water, of course, was out of the question. Plowing fire-breaks was slow work, and the high wind often drove the flames across them.

AROUND MT. VERNON.

It was 3 o'clock in the afternoon when the people around Mt. Vernon saw the wide-spreading prairie north west of them, burst into a blaze. The smoke was blown into and through the town on the wings of the wind. The flames rushed after with savage fury. Mitchell was telegraphed to for help, and 100 firemen, with a hook and ladder, were sent. The entire population of Mt. Vernon and the men from Mitchell met the furious flames on the outskirts of the town and fought with the burning fires. One hundred families are left homeless. The loss is $20,000. Outside of the town it is impossible yet to say what the loss is. Lonely little farmhouses scattered over the prairie are wiped out by dozens. Stories of losses of life may come later.

AROUND YANKTON.

YANKTON, Dak., April 4.—Stories of terrible losses by the hurricanes of fire that swept over the country north of here continue to come in. Volin village has only three buildings left standing. Olivet, in Hutchison county, was burned. Pukwanna was wiped out in Yankton county, and about twenty farmers burned out. In the vicinity of Jamesville, twelve miles north of Yankton, eight farmers sustained losses running from $1,000 to $3000 each. Around Jamesville the loss will foot up $10,000. One man lost $1000 in money, which he had in his coat on a piece of plowed ground 300 feet from the grass. Two new wagons were burned 100 feet from the fire. Sixty miles of telegraph wire were blown down between Centerville and Huron.

AROUND BLUNT.

BLUNT, Dak., April 4.—Stories of the fury of the fire continue to be brought into town by strangers. They say that the wind would gather up loose timbers and hurl them high in the air, carrying them ahead of the fire, alighting on barns and houses and igniting the prairie fifty yards in advance of the flames. Houses and barns, where burned where the fire was carried over 100 yards across newly-broken ground. The losses were estimated at $200,000 in this vicinity.

LOSSES OF LIFE AND PROPERTY.

HIGHMORE, Dak., April 4.—A destructive prairie fire started the evening of the 1st, five miles from Highmore, on the farm of James Ingram, while he was smoking his pipe. His barn caught fire and was destroyed. A fierce wind carried the fire to the prairie, and the work of destruction began. Houses and barns and stock were burned. Tuesday morning the wind reached a terrific gale. No ordinary fire-break made any obstacle to the sweeping flames. At 3:30 the fire reached Ree Heights, fifteen miles west of Highmore, where thirteen residences in the town were destroyed.

At sundown Tuesday another fire started in the northern part of Hyde county, sweeping away six houses, burning to death Miss Annie Stock Journal 5-year-old Eugene Tibbs. Mr. and Mrs. Tibbs and Mr. and Mrs. Ruby are dangerously burned, the two former fatally. The losses will reach many thousands of dollars.

AT HARTFORD.

HARTFORD, Dak., Apr 14.—A raging prairie fire swept down on the town this afternoon, and would no doubt have swept it out of existence but for the forethought and energy of the town people yesterday in firing around the town wherever unprotected. Heavy losses are reported from every direction.

AT CHAMBERLAIN.

CHAMBERLAIN, Dak., April 4.—Prairie fires have been raging fearfully in this county for the past two days. So far two lives are reported lost and fully 100 families have been deprived of absolutely everything.

AROUND SCOTLAND.

SCOTLAND, Dak., April 4.—It would take $200,000 to cover the loss in this county. The Hutchinson *Herald* office was burned. The losses amount to $50,000 with less than $6000 insurance. Two farmers near Olivet were completely burned out, and another fire, east of Scotland, destroyed everything on the farms of A. G. Fansky, Gus Evanson and M. Shock. On the stock farm of E. H. Sweet three barns were burned; loss $3000.

Twelve miles west of Scotland, a prairie fire raged. Twenty-five farmers are known to have lost everything.

AN AWFUL STORY.

ABERDEEN, Dak., April 4.—A terrible story of the destruction at Leola, the county seat of McPherson county, noted in last night's dispatches, has been brought in by couriers. Leola was a town of 300 inhabitants, and the country for miles around was well settled with industrious and thrifty people. They say that the surrounding country is nearly devastated. Hundreds of farm houses are in ashes, and the carcasses of burned stock are lying along the roadways. It is probable that one-tenth of the damage is not yet reported. The injured men, Old and Wardell, at last accounts were very low. Nothing definite is known about rebuilding. The citizens here will hold a meeting this afternoon to take measures for relief. Scores of farmers are without seed wheat, stock, buildings or implements to commence spring work.

TERRIBLE STORMS.

South Dakota and Minnesota Suffer Great Losses.

MINNEAPOLIS, April 4.—During the last two days South Dakota and Minnesota have been swept by a series of wind storms, which caused millions of dollars damage to property, and several lives have been lost. The storm started Monday night and swept over a large area south of the Northern Pacific in Dakota and extending into the southern counties of this state. The greatest damage has been caused by the wind alone, but in many places fires were fanned into a fury by the storm, and wiped out of existence several small villages and hundreds of farmers' homes, rendering hundreds of families homeless. The towns almost completely destroyed are Ilion, Olivet, Pukwana, Lesterville and East Mount Vernon. Three or four other villages were badly damaged. Many head of cattle, hogs and sheep perished. In many places the crops were covered by loose sand and dirt and will have to be replanted. Travel is suspended on some lines of railroads, so great was the force of the wind. The storm has abated somewhat, but the wind is high enough to keep fires burning fiercely, and further heavy losses are almost certain.

The damage in Minnesota is much less than in Dakota, as the force of the storm was pretty well spent before reaching the border. The losses in South Dakota are $2,000,000 at the least calculation.

NO CHOICE.

In Rhode Island Davis Has a Plurality, but Lacks a Majority.

PROVIDENCE, April 4.—The complete vote of the state for governor gives Ladd 16,852, Davis 21,330, Richardson 1511, Chace 3435. Davis lacks 548 of election, but has a plurality of 1398. For attorney general, Slocum has a majority of 1706.

By completed returns the senate stands: Republicans 21, democrats 31, with 4 to be elected. The house stands: Republican 23, democrats 87, with 12 to be elected.

NOT ENTIRELY ONE-SIDED.

CHICAGO, April 4.—To-day's developments changed at least one feature of the local political situation. Instead of a clean sweep for the democracy, the city clerkship, one of the most important offices on the list, falls to the republican party. In point of patronage the clerkship stands next to the mayoralty.

A Mysterious Arrest.

DENVER, April 4.—On receipt of telegraphic instructions from Superintendent Hubbard, of Chicago, the police to-day arrested Barney McKinney and Andy Larkins, well-known horsethieves, and are detaining them at police headquarters, awaiting the Chicago police officers. The arrest is a mystery, it being alleged that the prisoners are wanted in Illinois for stealing racing horses from Kentucky. The horses were found here yesterday, and were in the possession of McKinney and Larkins when they were arrested. The animals are worth between $3,000 and $25,000. The prisoners refuse to talk.

Sale of Two Fine Horses.

WHEELING, W. Va., April 4.—W. E. and Charles Brokaw, of this city have sold two thoroughbred horses—Wheeling Wilkes, by George Wilkes, for $10,000, and El Mahdi, by Onward, for $12,000.

A SERIOUS ACCIDENT.

Rev. Dr. Beecher, of Brooklyn, Suffers the Fracture of a Limb.

NEW YORK, April 4.—Rev. Dr. Edward Beecher, the venerable brother of the late Henry Ward Beecher, has sustained a serious mishap, which may result in his death. He is pastor of the Congregational church at Park ville.

He was at Parkville Tuesday evening, attending to some ministerial duty and returned to Brooklyn on the train. Although he is 85 years of age, Dr. Beecher is a man of remarkably fine physique and vigor, and spry as many men of half his age. When the train was slowly approaching the depot Beecher jumped off the car. He slipped on the platform, and falling on the track one of the wheels passed over his leg, fracturing it. He was removed in an ambulance to a hospital. It is feared that the shock to his system resulting from the fracture may terminate fatally. The left foot was amputated.

Dr. Beecher is one of the oldest clergymen in the United States. He has been in the active ministry for more than fifty years.

A FATHER'S CRIME.

He Cuts His Child's Throat and Ends His Own Life Similarly.

PITTSBURG, April 4.—Edward Deitz, a laborer, who resided with his wife and family in this city, killed one of his children this morning, a girl 3 years old, by cutting her throat with a razor, and then ended his own life in a like manner. The deed was the outcome of a quarrel between Dietz and his wife, which started last night.

The cause of the tragedy was the refusal of Mrs. Dietz to send for her eldest daughter, Lena, who was living out as a domestic, to come home. Dietz wanted his wife to live out and the daughter to take her place. After driving Mrs. Dietz and all the children but the baby from the house, Dietz sent a message to Lena that if she was not at home in an hour he would kill every one in the family. She did not obey him, and the refusal of the others to return probably alone prevented the murder from putting his threat into execution.

ARMED RESISTANCE THREATENED.

Settlers Oppose the Deputy Marshals Who Undertake to Evict Them.

FORT DODGE, Ia., April 4.—A posse of deputy marshals who went into the country to-day to make evictions from the river lands, met with a vigorous resistance from the settlers and returned to-night without having made any arrests or evictions. It is presumed that they will gather an additional force and return to the charge to-morrow. The settlers threaten armed resistance and the situation looks rather threatening.

Robert Garrett Returned Home.

BALTIMORE, April 4.—Robert Garrett returned to his home at Uplands, near Catonsville, Baltimore county, this afternoon. The reporter who drove out there said that Mr. Garrett looked quite pale. His face was thin, and the gray in his beard is quite noticeable. His expression is that of a man who has recovered from a long and painful illness. Mr. Garrett said that he was glad to be at home at Uplands and that his Southern trip had been very pleasant.

For the Repeal of a Temperance Law.

TORONTO, April 4.—Elections for the repeal of the Scott temperance act were held in the following places in Canada to-day, and the repeal was carried in all of them: Guelph and St. Thomas, cities; and Lennox, Addington, East, Northumberland, Durham, Victoria, Frontenac, Wellington, Lanark, Brant, Carleton, Ontario, Peterboro and Lincoln counties in Ontario, and Colchester county, Nova Scotia.

Attempted Suicide.

NEW YORK, April 4.—Mrs. Lucy Cahill, sister of the late Congressman Peter Paul Mahoney, attempted to commit suicide to-day by throwing herself from a second story window of her residence in Brooklyn. The nurse in attendance prevented her from accomplishing her purpose. Uncontrollable grief at the death of her brother, to whom she was strongly attached, is said to have unsettled her mind.

A Carload of Blooded Stock Burned.

PRESCOTT, A. T., April 4.—The front car of a trainload of thoroughbred stock en route to Prescott, on the Prescott & Arizona Central railroad, last evening took fire from a spark from the engine, and the entire carload of cattle, forty-two in number, burned to death. The loss is estimated at from $1500 to $2,000.

Do not lie awake nights and cough! Ayer's Cherry Pectoral will relieve the cough and induce a good night's rest.

Take the Northern Pacific Railroad the dining car route for all points East. Office, No. 121 First street, corner Washington.

Mysterious and Fatal Poisoning Case at Seattle.

A SEARCH FOR THE BIG METEOR

A Secret Prize Fight at Spokane Falls—Removal of the Physician at the State Penitentiary—In and Notes

SEATTLE, W. T., April 4.—[Correspondence of the Oregonian.] Mrs. Lizzie Bagley, for whose death Dr. Graham and Mrs. Lockington were arrested, died at 2 o'clock this morning. It was somewhat expected that she would die, as she had been in a critical condition for several days. Coroner Hill was notified of her death, and he will hold an inquest to-day. The post-mortem examination will be held this afternoon. The deceased was a widow, and has been living with Mrs. Lockington for some time. Dr. Graham has been practicing medicine in this city for about two years. He has a large practice, and is considered a skillful physician. Mrs. Lockington is a midwife, and has been in practice here for about a year. Both Dr. Graham and Mrs. Lockington have been under arrest since Tuesday, March 26th, and have been confined in the county jail. Mrs. Lockington's husband is a prominent lawyer of this city, and has been untiring in his efforts to secure the release of his wife. Dr. Graham's friends have also been active in his behalf. Both Dr. Graham and Mrs. Lockington have retained able counsel, and will make a vigorous fight for their liberty. The case will probably be brought to trial in the Superior Court next week.

Mrs. Bagley's husband, who is employed in the Pacific Coast Coal Company's mines at Newcastle, arrived in this city last night, and visited the remains of his wife this morning. He will take the body to Newcastle for burial. Mrs. Bagley's mother, who resides in Portland, Or., has been telegraphed to, and will arrive in this city to-morrow. Mrs. Bagley's two children will accompany the remains to Newcastle. Mrs. Bagley's mother will also go to Newcastle. Mrs. Bagley's husband is a member of the Knights of Pythias, and the order will have charge of the funeral.

Mrs. Bagley's death has created a great deal of excitement in this city, and the case is the talk of the town. Mrs. Bagley's friends are very bitter against Dr. Graham and Mrs. Lockington, and it is probable that the latter will have to be protected from violence. Mrs. Bagley's friends say that she was in good health when she went to Dr. Graham's office, and that she was not sick a day after she left there. Mrs. Bagley's friends say that Dr. Graham and Mrs. Lockington have been in the habit of performing criminal operations, and that Mrs. Bagley's death was the result of one of these operations. Mrs. Bagley's friends say that Dr. Graham and Mrs. Lockington have been in the habit of performing criminal operations, and that Mrs. Bagley's death was the result of one of these operations.

SEARCHING FOR THE METEOR.

A Washingtonian Declares That It Fell in the River Near His Place.

OLYMPIA, April 4.—The meteor which was seen from various points on last Sunday evening is described by a resident of Yelm as having fallen in the Deschutes river, about a mile from his residence. He is now searching for it with every hope of success. He describes the sound of its fall as being equal to that of a discharge from several batteries.

A SECRET PRIZE FIGHT

Paddy Welch Knocked Out at Spokane Falls by Thomas Stockley

SPOKANE FALLS, April 4.—Paddy Welch and Thomas Stockley fought to-night for $500 a side. The contest was arranged for last night but the mayor interfered whereupon the principals arranged a meeting in private to-night. It was kept a profound secret to all save the immediate friends of the parties interested, and only about fifty were admitted. These were pledged not to tell where the battle occurred, and they have kept their word.

Welch was knocked out in the eighteenth round. His right arm was dislocated at the elbow. There is much excitement in sporting circles over the event.

FROM SALEM.

Removal of the Physician at the Penitentiary—Capital Notes.

SALEM, Or., April 4.—Articles of incorporation were filed in the secretary of state's office to-day by the Cleveland Oil and Paint Company. Charles A. Malarkey, J. McCraken, Thos. M. Richardson and W. L. Lindhard, incorporators; principal office, Portland; capital stock $75,000. Also by the Albany Mining and Milling Company: A. B. Wooden, A. A. Rhoades, W. T. Reed, Robert Brown, Mike Cowen, B. M. Hunton, C. E. Brownell and P. Donlay, incorporators, principal office, Albany; capital stock $100,000.

B. M. Smith, Albina, has been appointed notary public.

Everybody was surprised this afternoon when it was announced that Dr. W. H. Byrd, for two years physician at the penitentiary, had been removed by Superintendent Downing. Downing requested Dr. Byrd's resignation, but the doctor would not give it, so he was discharged. The excuse offered by Downing is that the prisoners complained of Byrd, and were dissatisfied. Dr. Byrd is one of the most influential democrats in the county, and is very popular. He was the man who nominated Downing's son for the legislature last year, and his removal is a great surprise. The general opinion is that Downing has made a big mistake this time.

John Henry Otis Clemens, aged 28 years, was brought to the asylum to-day from Baker county, by Deputy Sheriff J. H. Smith. He is crazy on love.

FROM WALLA WALLA.

Operations of a Gang of Clothing Thieves—Railroad Notes.

WALLA WALLA, April 4.—All the Northern Pacific trains now meet at Pasco instead of Wallula, as heretofore. There is talk that the O. & W. F. trains will also go to Pasco to make their Northern Pacific connections instead of stopping at Wallula, as now.

Last fall, near Berryman's station during a fierce dust storm, a O. R. & N. engine ran over a small child of J. E. Berryman, cutting off one hand and foot. Wednesday suit was brought against the O. R. & N. Co. by Berryman for $15,000 damages.

For several days four men had been selling fine new clothing in the outskirts of town so cheap as to excite suspicions. Finding that they were watched, they left suddenly, taking thirty suits with them. Two others were arrested and put in jail. They claim they are from San Francisco. The clothing is said to belong to a Portland firm, and was evidently stolen. The police only captured two suits.

Troop F, Captain Swigert, Second United States cavalry, will leave in the morning for the new station at Vancouver.

Five tons of garden stuff was shipped to-day to places on the Northern Pacific and mining points.

The Gilbert Mountain Mining Company has organized here, to operate mines in the vicinity.

The total business of the land office the past three months here covers 58,000 acres, which is considered astonishing. The public domain in this district will soon be gone.

THE TERRITORIAL TEACHERS.

An Interesting and Successful Convention Held at Olympia.

OLYMPIA, W. T., April 4.—The territorial teachers association organized yesterday at the capitol and elected the following officers: President, J. H. Morgan, Ellensburgh; vice presidents, R. C. Kerr, Walla Walla; R. B. Bryan, Montesano; H. A. Hambeck, Seattle; W. B. Turner, Spokane Falls; L. H. Leach, Vancouver; secretary, Miss Nettie Moore, Spokane Falls; treasurer, Miss A. Cushman, Tacoma; executive committee, F. B. Gault, Tacoma; Miss Elida Engdahl, Yakima; J. L. Manchester, Ellensburg; legislative committee, L. E. Follansbee, Olympia; O. S. Jones and Miss Julia Kennedy of Seattle; Mrs. P. C. Hale, Olympia, and R. E. Ingram, Port Townsend.

The convention was a decided success, about 200 teachers being in attendance principally from Western Washington.

Able and well written essays were read at the public meeting last evening, by Professors Leach of Vancouver, Gault of Tacoma and Miss Kennedy of Seattle, all of which were afterward printed. Fine vocal and instrumental selections were rendered during the intervals and the citizens did everything to make the visit of the teachers a pleasant one.

The establishment of a state normal school at Spokane Falls was favored by J. W. H. Turne, and many important points by other teachers who made short addresses. A resolution was adopted asking the legislature to make an appropriation for the normal school, and that it be made available for use during the coming legislative session. Resolutions of thanks were also adopted, and the next meeting will be held at Walla Walla.

The following officers have been elected for the ensuing year: President, J. H. Morgan, Ellensburgh; vice presidents, R. C. Kerr, Walla Walla; R. B. Bryan, Montesano; H. A. Hambeck, Seattle; W. B. Turner, Spokane Falls; L. H. Leach, Vancouver; secretary, Miss Nettie Moore, Spokane Falls; treasurer, Miss A. Cushman, Tacoma; executive committee, F. B. Gault, Tacoma; Miss Elida Engdahl, Yakima; J. L. Manchester, Ellensburg; legislative committee, L. E. Follansbee, Olympia; O. S. Jones and Miss Julia Kennedy of Seattle; Mrs. P. C. Hale, Olympia, and R. E. Ingram, Port Townsend.

FREIGHT TRAINS COLLIDE.

Two Men Killed and Two Wounded on the Central Pacific.

TRUCKEE, Cal., April 4.—Freight trains Nos. 9 and 10 collided at Lawton's switch between Reno and Truckee, this afternoon. Fireman Micadat and Brakeman Harry Wilson were killed, and Brakeman Isaac Cross and Engineer Thatcher injured. Physicians have gone from Reno on a special train to the scene of the accident.

CALIFORNIA NEWS ITEMS.

Return of a Pioneer Fireman

SAN FRANCISCO, April 4.—Edward A. Fitzette, an old time fireman after an absence of thirty four years from this city returned yesterday to visit the few old associates who are left to greet him. He was assistant chief engineer of the fire department from 1850 to 1854, and he drew up the first rules adopted for its government. He was also an assistant to the grand marshal at the celebration for admission of the state to the Union. He left here to visit his old home in Connecticut, and have he remained until a few weeks ago. He brought with him the original roll call of the exempt fire company.

Sporting Notes.

SAN FRANCISCO, April 3.—Joe McAuliffe, ex-champion heavy weight of the Pacific coast, and Jim Hall, ex-champion of Australia, signed articles to-night to fight a finish contest to take place at Los Angeles on the 23d inst. Both men have been in training for the fight for some time, and are now in good condition. The stakes are $1,000 a side, and the battle will be fought with bare knuckles. Both men are to weigh 158 pounds at 3 o'clock on the afternoon of the fight.

Claus Spreckels.

SAN FRANCISCO, April 4.—Claus Spreckels, the sugar king, will leave for Philadelphia April 20, where he will be operated upon for the excision of a new growth near the kidney, which is expected to commence during the first week in June. He expects to be able to return about 1,000,000 pounds of sugar daily during the year, and after that the capacity will be increased to 2,000,000 pounds.

The Geary Street Accident.

SAN FRANCISCO, April 4.—In the case of Leon Asch, the seven year old child who was run over and killed by a Geary street car last evening, the jury this evening brought in a verdict exonerating the gripman from all blame, but the Geary Street Railway Company is censured for not having safety guards attached to the dummy.

A Proclamation by Governor Waterman

SACRAMENTO, April 4.—Governor Waterman today issued a proclamation declaring Tuesday, April 30, the centennial of the inauguration of George Washington as the president of the United States a legal holiday, and requests that business be suspended on that day.

The Alleged Bunco-Steerers

LOS ANGELES, April 4.—James Hood and Frank Lowe were held for trial to-day in $1000 bonds each, consisting to the charge of bunco-steering on John Hopkins of New York, a few days ago.

Stage Robbers Convicted.

DOWNIEVILLE, April 4.—In the trial of Hanlon and Nichols for robbing the Anderson stage last January 6, the jury returned a verdict of guilty as charged.

FRANCE'S GREAT FARCE

Boulanger Will Be Prosecuted by the Government.

A DISCUSSION IN THE DEPUTIES

The Deputy General Announces a Willingness to Stand Trial by the Regular Courts of Justice—He May Go to London.

PARIS, April 4.—The minister has asked the chamber of deputies to sanction the prosecution of Boulanger.

In making the request the government submitted a statement to the chamber in which it reviews the career of Boulanger since the commune and charges him with attempting the destruction of the republic. It declares that his offense comes under the sections of the penal code which deal with conspiracy and attempts to overthrow the established government.

The Republican members of the right declined to accept the president of the chamber for reading the government's statement, relative to Boulanger, and called upon the minister of justice to read his own work.

IN FAVOR OF PROSECUTION.

A committee was appointed and subsequently presented its report to the chamber. The committee advised the house to authorize the prosecution of Boulanger.

Laguerre, Laisant and Perrine have gone to Brussels to consult with General Boulanger. Laguerre before his departure, said that he and his two associates would return Saturday to face judgment.

The chamber voted urgency for the discussion of the accusations against General Boulanger, and the debate proceeded.

Paul de Cassagnac pronounced the charges against Boulanger a tissue of absurdity and falsehood.

Premier Tirard called upon the chamber to authorize the prosecution of Boulanger. He said "We desire to prosecute the man who is seeking to overthrow the republic. It is our duty to defend the institutions of our country against the intrigues of factions and to take every means to preserve France from the horrors of civil war. I am convinced that the people justify the action of the government."

After speeches by other members the vote was taken on the question of sanctioning the prosecution of Boulanger. The result was adverse to Boulanger, the chamber deciding by a vote of 336 to 221, in favor of the prosecution.

BOULANGER'S PLANS.

BRUSSELS, April 4.—General Boulanger informed a reporter to-day that he would go to London if he was expelled from Belgium. He also said that he was about to send a communication to the procurer general at Paris in which he would offer to appear at the assize court and meet any charges that might be brought against him in a proper and legal manner. He declared that he would never submit to the senate.

THE PROSECUTION MUST CONTINUE.

PARIS, April 4.—The opportunists and radical journals declare that Boulangism ended with the flight of Boulanger, but that the prosecution of the general must continue.

AN UNFORTUNATE DIVINE.

A Former Pastor of a Boston Church, Commits Suicide in London.

LONDON, April 4.—Rev. Charles Sidney Hurd, lately of the Palmerston Unitarian chapel of Boston, committed suicide by taking opium Sunday. Last week Hurd wrote to Rev. Stafford Brooke, asking for pecuniary assistance, which the latter promised. At the inquest to-day, a letter from Hurd to Brooke was read, which concludes: "The sole way for which I can escape my difficulties is through the gates of death. I am the most unlucky mortal on earth. Give my body to the medical school for dissection." The jury rendered a verdict of insanity. Brooke will not allow the body to be dissected, but will defray the expenses of burial.

WHO HE WAS.

BOSTON, April 4.—The dispatch from London, announcing the suicide of Rev. Charles Sidney Hurd, of Palmerston chapel, Boston, probably refers to Rev. Charles Sumner Hurd, the Unitarian minister, formerly in charge of the Palmerston street chapel, in this city. This pastorate was concluded in 1888.

EMBEZZLED BY THE F. F.

BOSTON, April 4.—Regarding Rev. Charles S. Hurd, whose death in London is reported from London it is learned that he left New York March 15, for London, on business for the Northern Pacific railroad, by whom he had been employed for several months in editing a book descriptive of Washington territory. His brother, R. F. Hurd, resides in Malden, Mass., and believes the theory of suicide is groundless. Deceased was a young man in excellent health when he left home, and with excellent prospects. He had been troubled with nervous pains, and had the habit of taking morphine to relieve them, and it is believed by his brother that his death was due to taking an overdose. Word was received of his death on Monday, and instructions were at once cabled, but nothing in the dispatch indicated suicide.

THE NIPSIC FLOATED.

Arrival at Sydney of the Calliope, With Particulars of the Disaster.

SYDNEY, April 4.—The British man-of-war Calliope, which escaped destruction at Apia by the ravages of the cyclone there March 15 and 16, has arrived here. She reports leaving Samoa on the 21st of March, and that the United States men-of-war Nipsic had been floated off the beach, the natives lending material assistance.

Before the hurricane burst every precaution had been taken by the commander of the Calliope to render the vessel secure. Five anchors had been dropped, but when the storm was at its height four of the anchor chains snapped and the vessel began to drift. The captain then determined to leave the reefs and if possible reach the open sea. This he eventually succeeded in doing, working his way out at a depth of half a knot an hour. Tremendous seas broke over the vessel doing much damage, but fortunately no life was lost.

Thousands of people flocked to the waterside to-day to see the Calliope, and all united in praising the gallantness of her captain.

STANLEY AND EMIN PASHA.

They Are Reported To Be Moving Toward Zanzibar With a Large Caravan.

BRUSSELS, April 4.—Advices from Stanley Falls state that Arabs who have arrived there report that Henry M. Stanley and Emin Pasha were heard from in February. They were marching toward Zanzibar with several thousand men, women and children and 6000 tusks of ivory.

The Arabs who brought the news of Stanley and Emin arrived at Stanley Falls in February. They claimed to have seen Stanley several months before that time.

Sir Francis De Winton, president of the Emin Bey relief committee doubts the story concerning Stanley and Emin, which was sent to Stanley Falls by the Arabs. Supposing that Stanley reached Emin at Christmas Sir Francis thinks the story brought by the Arabs has traveled too quickly to be a fact. He considers it more likely that it originated in the discussion of Emin's projects.

THE PARNELL COMMISSION.

Sir Charles Russell Explains the Constitution and Objects of the League.

LONDON, April 4.—Sir Charles Russell continued his speech in behalf of the Parnellites. He explained the constitution and objects of the league and said that of the persons constituting the executive of the league only five were connected with secret associations. The league appeals were heard upon the necessities of the farmers and were entirely unconstitutional. They were intended to guide farmers in their distress and Mr. Parnell and his followers had been vilified and misrepresented, like Bright and Cobden were in their early days. There was a reform movement.

Sir Charles said the prominent members of the league were in favor of boycotting, which, up to a certain point, they considered justifiable. He held that Parnell was not liable, criminally or otherwise, unless he was a party to murder and outrage.

AN IMPERIAL ORDER.

Emperor William Refers to the Officers and Men Lost at Samoa.

BERLIN, April 4.—An imperial order in relation to the lost officers and men belonging to the German navy by the recent hurricane at Apia, has been issued. The emperor says he laments what is God's will, has transpired. The officers and men stationed at Samoa lacked staked their lives for the empire and their lives have been lost while in the faithful performance of their duty. The emperor expects that confidence in the navy which has been so successfully developed, will remain unshaken, and that the devotion to duty displayed by those who perished will serve as a bright example to the whole navy, which in the future as in the past will work for the welfare and glory of the fatherland.

The German naval authorities have ordered the cruiser Habicht and the gunboat Wolf to be put in readiness at once to proceed to Samoa.

BADLY WRECKED.

Two Freight Trains Collide in Tennessee, and Two Brakemen Are Killed

NASHVILLE, Tenn., April 4.—A collision of two freight trains occurred this morning on the Nashville & Decatur division of the Louisville & Nashville road, three miles south of the city. M. Loby and Ernest C. Green, brakemen, were instantly killed. Albert Bink, a fireman, was injured in the back, but will probably recover. Engineer Moran, of the south bound train, and Engineer Oakley, of the north bound train, both jumped before the collision struck, and escaped without any real injury. Both Conductors Martin and Lenkenheimer were in their respective cabooses and neither was hurt. The engines and trains were badly wrecked.

IN THE CANADIAN PARLIAMENT.

A Warm Debate Over Harrison's Proclamation With Reference to Behring Sea.

OTTAWA, April 3.—In the senate to-day, Macdonald, of British Columbia, interrogated the government regarding the recent proclamation of President Harrison respecting Behring sea.

Senator Meinnes, also of British Columbia, read an editorial from a United States paper to the effect that one half of Behring sea belonged exclusively to the United States. In conclusion he urged the government to ask the imperial government to settle the question at once and forever.

Kaulbach spoke in a similar strain.

McInnes interrupted him to state that the United States had put forth a contention in 1867 to exclusive privileges in the sea, and named British vessels.

Abbott, leader of the government, said that he did not understand the proclamation to assert any new rights by the United States or any right over Behring sea. He believed that the American government contended that certain portions of Behring sea were exclusively under American jurisdiction. The Canadian government would continue to act in accordance with the opinion of Lord Salisbury. The just demands of British subjects for compensation for the damage done by the Indian scouts would not be abandoned.

TELEGRAPHIC BRIEFS.

The Marquis of Elyburton Canadian Legation.

The German corvette Sophie will run to Samoa from Zanzibar.

In the Wisconsin assembly a bill to repeal the Bennett law was defeated Thursday.

The report of the death of King John of Abyssinia, is confirmed.

Hamal on Reeves, jr., of New York, has been appointed assistant clerk of the postal building.

C. F. Clarkson, jr., of Iowa, and Hal Pierce, private secretary to the postmaster, will assist Postmaster General.

News has just been received that two earthquakes shocks were experienced in Samoa on December 15 and Friday last.

Mrs. Turner Sargent, daughter of Dr. Oliver Wendell Holmes, died Wednesday evening at her father's home in Boston.

One hundred and forty Mormons have been fined 600 marks each for failing to call for Colonel Kerr on the German army.

The government of Chili has formally signified its intention to participate in the conference of nations, to be held in Washington this year.

The jury brought in a verdict for the defendant at Red Bluff in the celebrated slander suit of Barkley vs. Copeland, involving $25,000 damages.

As there was not sufficient evidence to warrant the carrying of the case, Lowden Wednesday at Castle Garden, they were permitted to leave the Garden.

A bailiff was shot dead at Coleraine County Londonderry yesterday. The murdered man had charge of a farm from which a tenant had been evicted.

The president's callers Thursday included Walter Howard an applicant for the governorship of Alaska and Hon. Robert T. Lincoln the new minister to England.

The programme for the spring races of the New Orleans Jockey Club of 1889 has been completed. The races will begin Wednesday, the 24th inst., and will last eight days.

D. O. Mills, of New York is going to California shortly to remain all summer. He will go from California to Alaska to visit the gold mining properties which he recently bought there.

The English house of lords by a vote of ninety five to seventy seven, elected the Earl of Morley to be chairman of committees, rejecting the Marquis of Salisbury's candidate, Lord Balfour of Burleigh.

In the English commons yesterday afternoon in the report of the state of the naval preparations the motion by Childers against the financial method of the scheme was rejected by a vote of 256 to 125. Gladstone supported the motion.

Senator and Mrs. Stanford have left Washington for San Francisco. They will remain in San Francisco only four weeks and will then start for Alaska, remaining there about six weeks. Justice and Mrs. Field will accompany them to Alaska.

W. H. Murray has been appointed postmaster at Black Diamond King county, W. T., in place of a Mr. Brooks, who has resigned. Edward M. Waidt has been appointed postmaster at Spangle, Spokane county, W. T., in place of Charles S. Luby, who has resigned.

A decision was given yesterday on the appeal of Kilbride member of parliament for South Kerry, who was recently convicted of offenses under the crimes act and sentenced to three months imprisonment. The court decides against Kilbride, and confirms the sentence.

The report of the Chicago St. Paul, Minneapolis and Omaha road for the year ending December 31, 1888, was issued to-day. It shows gross earnings of $6,411,138, a decrease of $329,771 as compared with the preceding year. The expenses were $4,649 167, an increase of $14,544. The net earnings were $1,762,690 a decrease of $356,288.

It has been announced that the controlling interest in the Laclede Glass Works of St. Louis will be purchased by a syndicate consisting of the Vanderbilts, August Belmont and Laird, the London bankers. It is also stated that the syndicate will obtain a controlling interest in the St. Louis gas trust, and combine all the properties under one organization, with a capital of $12,000,000.

The action of Secretary Windom yesterday in rejecting $2,931,250 offerings of 4½ per cent bonds at 108¾ and 108⅞ is regarded at the treasury department as indicating his purpose not paying over 108 for these bonds, for the present, at least. It is believed that secretary Windom will outline his policy in the matter more definitely in a few days.

News has reached El Paso of a terrific explosion in the Log Cabin mine in the Hermit district, New Mexico. Del White and W. A. Johnson, two miners, were down an eighty foot shaft, drilling and loading with giant powder for a blast. White tapped with a spoon one of the cartridges already placed. An explosion followed. Johnson escaped unhurt, but White was torn to pieces.

At a meeting yesterday of the Georgia State alliance, representing nearly every county in the state, called to take some action against the jute bagging trust, a resolution was unanimously adopted that every bale of cotton made by the alliance men in Georgia shall be covered by cotton cloth instead of jute bagging. This action affects nearly a hundred thousand farmers and will result in the establishment of many new cotton factories in the state.

STEALING A SAWMILL.

An Attempt Being Made to Transport It Across the Canadian Border

DETROIT, Mich., April 3.—Moiles Bros. lumbermen, owe Lard & Hornstein of Buffalo, $45,000 which will soon fall due. Not being prepared to meet it, they secretly collected a large gang of men, and are loading the mill and machinery on schooners, preparatory to taking the stuff to Spanish river, Canada, where a sale for its operation has been secured. To prevent interference by the authorities, the telegraph wires have been cut.

THE SOUTHERN PACIFIC.

Election of General Officers—A. N. Towne Chosen Vice President.

SAN FRANCISCO, April 4.—The directors of the Southern Pacific of Kentucky, elected at the meeting held yesterday by the stockholders, met to-day at noon, and elected the general officers for the ensuing year. The only change is in the name of A. N. Towne, C. F. Crocker takes the place of his deceased father and Towne becomes vice president.

Northern Pacific Affairs

NEW YORK, April 4.—No meeting has been called this week, either of the Northern Pacific directors or the executive committee, but some of the officials of the Northern Pacific are still struggling with the knotty problems in the Wisconsin Central proposition. Chairman Harris of the Northern Pacific directory, left for Boston today, to confer with the Union Pacific people in regard to the Oregon Navigation matter.

"Domestic economy consists in doing without things." It was first practiced by Adam and Eve.—*Martha's Vineyard Herald.*

RHEUMATISM AND CATARRH CURED.

Dr. Darrin—Dear Doctor: After using three bottles of your magnetic oil I find myself entirely cured of rheumatism from which I had suffered for five years. I am writing my thanks and heartily endorsing your treatment for rheumatism. I feel it no more than my duty. Most respectfully,

J. P. GEORGI.

Glendale, W. T., March 20, 1889.

An Open Letter.

Mr. Editor—Dear Sir: For the last twenty years I have been afflicted with catarrh of a very disagreeable character. Large crusts formed in the head and came down and I expectorated a great deal of thick, viscid stuff from my throat. The catarrh had also affected my hearing. I applied to Drs. Darrin for relief. They said the my case was an easy one to cure and now they have cured me most entirely of my catarrh. They are making wonderful cures and I advise the afflicted to try them. Yours truly,

WM. HUNTER.

Eugene City, February 12, 1889.

The above named gentlemen are old pioneers and is well known through out the Willamette valley. His statement, coming from a man of undoubted integrity, and whose veracity is above suspicion must be admitted as positively true, and he can be referred to.—*Eugene Guard.*

DR. DARRIN'S PLACE OF BUSINESS.

Drs. Darrin can be consulted free at 205 First street corner of Main. Portland. Office hours, from 10 to 4 o'clock daily; evenings, 7 to 8. Sundays 10 to 12. All catarrh, chronic diseases, loss of manhood, blood taints, syphilis, piles, pemorrhoids, stricture, spermatorrhœa, seminal weakness, or loss of desire of sexual power, in man or woman, catarrh and deafness are combatted by and successfully treated. Cures of private diseases guaranteed, or never published in the papers. Consultation free. Most men can receive home treatment after a visit to the doctors office.

Dr. Darrin so successful in treating cross eyes will be at the firm's office for a limited time, and will devote most of his attention to that specialty as well as diseases peculiar to women, also club feet and other deformities.

[illegible]NTON.

The old rival of the city of Portland arises from her long [illegible]

The Portland Smelting Company has located on the site of the old town and soon the hum of a busy industry will there awake the echoes.

Work for an extensive smelting plant has already commenced, which will bring in its train many other enterprises among which are grain warehouses, a sawmill, brick and stores, warehouses, etc., in short, a busy thriving town.

No better location for the business can be found on the river below Portland as the ground is free from sloughs and ravines. The company has reserved about thirty acres for the smelter which will be built and put in working order as speedily as money and muscle will allow. Adjoining the smelter reservation is laid out the town of Linnton consisting of about eighty acres with a river frontage of about 2000 feet, with deep water to the shore, and to whose wharves the vessels of the world can come without let or hindrance from the river coaster to the grain laden ship of thousands of tons. The site is be

THE ONLY CITY IN THE UNION WITH GOLD

WHICH CAN

Be Used to Designate the Name of Its Location.

THE ROMANS WERE THE FIRST TO COIN GOLD

SINCE WHICH TIME IT HAS BEEN

IN SECRET, "GOLD IS KING."

The Best Known, Most Talked of and Best Paid for Fact.

BECAUSE THE WONDERFULLY RICH MINES OF THIS COUNTY SHIP THE R PRECIOUS ORES FROM THIS CITY AND

THESE ORES ARE RICH IN GOLD

If the Wealth of the Mountains in Baker County, Oregon, Was Known to the Capital of America and Europe
There Would Spring Into Immediate Existence at

BAKER CITY

The duplicate of Denver they yield

The mines are here, and though worked in a quiet, undemonstrative way, yet they have turned out dollars into thousands, these thousands into millions, and still although they have JUST BEGUN There have been over fifteen hundred mining claims filed upon in this county in the past twenty years Many of these have become good paying mines, the amount of whose output is silently kept by the owners. The Conner Creek mine, twenty years old, with a 900 foot shaft and 3700 feet of tunnel, is now worked night and day. The stock of this mine has never had an assessment against it. It is owned by Mr S G. Reed of Portland

The Eureka and Excelsior, the Columbia, the Morley, the Sanger, the Cornucopia, Cracker Creek, Balsceu, Tom Payne, Pocahontas, Big Aleck, Cable Cove, California, Mammoth, Gray Eagle, North Pole, Elkhorn at Head of Pine Creek.

And the others whose name is Legion, have each proven the existence of rich ores. Hundreds upon hundreds of tons of these ores are shipped annually from Baker City to Denver, Colo It costs $50 per ton to ship these ores this distance, but it is cheerfully paid, as they net from $100 to $500 per ton and over clear profit to the owners. There are to-day in the mines of Baker county millions of tons of

GOLD ROCK

That assays from $15 to $50 per ton, that awaits the introduction capital machinery and

REDUCTION WORKS.

A dozen of these works, if here, would coin money for their of owners, Why have they not been put up? Simply because the owners of these mines could not, in a life time, take out the pay streak of these veins, which pay the $50 freight per ton, and they need their money for deeper developments, and no other capital is here to build smelters or reduction works Besides, too much notoriety given the great wealth of Baker county mines might invite the great absorbing, monopolized capital of America, which would forever shut out the little fellows. How these "little fellows" would welcome the capital which would erect machinery to work the lower grade ores of from $2000 to $60,000 per ton at Baker City, even if the works should get three fourths of the wealth and leave only one fourth for the present owners. All that Baker City needs, all it asks, is that something may induce the capital of America to come here, investigate fully for itself, and leave the rest to the future. Then this city would grow as no city ever grew, and where there are now but 4000 inhabitants there would then be 40,000. Remember that these mines, until recently, have been the homes of the plodding miner, whose pick and shovel have earned him his grub, and his want of means has kept him from developing a splendid paying prospect into magnificent paying mines. There are twenty mines in Baker county now, which employ about 2000 men, whose payroll will amount to $2,000,000 per year. All the mines in Baker, Grant, and Union counties secure their supplies at

BAKER CITY,

And there are hundreds of these, though now established prospects, await more work to become great mines. Baker City is to day about equal to Denver in 1872 The mineral outlook at Denver then was not so promising, nor as sure in prospects, as Baker City mines now show.

Then what will Baker City be ten years hence? There has already been shipped, reduced, and turned into BULLION richer and better paying ore from Baker county, Or than has ever been mined in Leadville, Colo., Helena, or Butte, Mont, or elsewhere in the

ROCKY MOUNTAIN RANGE,

And the developments in Baker county have not yet been deep under GROUND The future of this mining camp has a cyclone awaiting THE MINING WORLD

BAKER CITY,

Like Denver, has a very large area of tributary agricultural country to supply. A scope of farm lands embraced in valleys, which if in continuous running miles, even at present width, would be about thirty miles wide by ninety miles long A dozen railroads might be built, but they must come to Baker to get through mountain passes So this scope of agricultural country will always be supplied by Baker It raises everything known to man and grown outside the tropics. Its wheat grades No. 1, and yields an average of over fifty bushels per acre, oats yield eighty to 110 bushels per acre, barley forty to sixty bushels Potatoes and onions yield so abundantly that the truth startles and causes doubt, for it is so great—300 to 600 bushels per acre Fruits grow splendidly, and orchards are seen in all directions If there remained nothing whatever to support Baker City but its agricultural lands, then this city would grow to five times its present size, for there is enough produce to maintain

20,000 INHABITANTS.

As to livestock, the assessor's returns, which were never known to return any extra number, show the figures of

57,490

As the number of livestock in this county. About 16,000 of them are cattle, 9000 horses and mules, 2000 of them swine, and the balance sheep. Three to four hundred carloads of livestock are shipped East or West each year, the number on the increase

Remember these mines have just begun to yield, hence they have contributed to Baker City trade only in what the miners eat and drink. This is said to show that Baker City has been supported chiefly by agricultural and stock interests. In the future the mines, like those around Denver, will furnish the big money for Baker

As it is, the receipt of merchandise alone, received by merchants of this city, has averaged one half carload per day Think of it! A city with 4000 population yes, about 4250) receiving 10,000 pounds of freight per day. The freight received and the freight sent out, in the livestock above stated, in 10,000 pelts, 3000 hides, in 1,250,000 pounds of wool, and in hundreds of tons of rich gold quartz, which is so rich that after paying $50 freight per ton it returns to its owners a clear profit of from $100 to $500, and $1000 per ton When you take the gross amount of all this freight, it figures up over 7 000,000 pounds of freight as handled by the local O. R. & N Ry station here. Great amounts of merchandise and products must have come and gone, for the total money value of the business done in Baker in 1888 amounts to over

$10,000,000.

Why, the payroll of twenty mines tributary to Baker City is over $2,000,000 per annum.

The lumber interests of this county, solitary and alone, without mines, arms or stock, would build up and maintain an immense population. Here are forests of magnificent timber—pine and fir in its most virgin condition, in which neither ax, saw, fire or man has yet penetrated. It is declared to be the finest timber in Oregon A railroad, the Sumpter Valley, is on the eve of construction. It runs from here to the great "Cracker Creek" mines This road is being built to secure the fine timber along its line. There are ten saw mills now here, cutting 100,000 feet per day. When the railroad is finished to that big forest of timber, and it commences about in sight of this city, then, where 100,000 feet per day is cut, 1,000,000 will be the yield. This city furnishes lumber to Salt Lake City, about 4,000,000 feet being shipped last year, 1888

Will the reader stop and ponder one minute? How many cities in America are there with from 20,000 to 75,000 people? There are a hundred of them Has one single city in the number got one fourth the resources that

BAKER CITY HAS?

Yes, Denver, Colo, with 75,000 people, Helena, Mont, with 22,000 to 25,000, Spokane Falls, W. T, with 20,000 to 25,000, each have parallel resources to Baker, but not one has any greater resources. The growth of the two last named cities has come to them in the past eighteen months to two years Two years from now and Baker City will have double its present population. Just plaster this prophecy on the wall to remember its fulfillment

This page advertisement is not to sell REAL ESTATE It is to let the world know what we have, and our aim is to entice capital to our mines, that it may double annually here, and to help our miners of moderate means, those who have staid by their mines these many years awaiting machinery and works that will reduce low grade ores, which will run from $10 to $50 per ton Our mountains are full of them We have all needed fluxes—what we want is more capital, more population, more farmers Our town lots will care for themselves, and if we hold them they will be worth ten years hence what Denver lots are to-day.

If great gold mines, great forests of timber, if thirty by ninety miles of farm lands and our great herds of stock will BUILD A CITY, WE WILL HAVE ONE, and that speedily

Our citizens pay for this page and they invite all readers to review the inside columns of this paper, which gives a fuller account of Baker City We are appointed a committee to receive correspondence and see that straight replies are sent We will tell you everything we can about Government Lands which are in the county. Timber Claims also, and about anything you ask. Address

NEWSPAPERARCHIVE®
NEWSPAPERARCHIVE®

The Oregonian.

PORTLAND, FRIDAY, APRIL 5

THE NEW ADMINISTRATION

Democratic dispatches strive to create the impression that President Harrison is not satisfying republican senators, and that the feeling against Harrison among the republicans is as strong as it ever was among the democrats against Cleveland, and that if it is not appeased it means that Cleveland's fate will be Harrison's fate.

These reports have no foundation except that the president clearly did not satisfy the five republican senators who voted not to confirm the nomination of Halstead to the Berlin mission. But the president's satisfied the people and his party, who will settle with those revengeful senators at the earliest opportunity.

Of course no president can escape occasional errors of judgment no president can entirely escape imposition but the spirit of Harrison's appointments both foreign and domestic thus far produces the convict on that he is nobody's man in particular. His nomination of Robert Lincoln always an outspoken, resolute anti Blaine man to the English mission was clearly not dictated by the secretary of state and even the mug wump-democratic press confesses that in making it President Harrison proved that he has a will of his own and knows how to secure respect for his wishes. The intimation that Harrison promises to be as "bull headed" as Cleveland and likely if he does not surrender to the professional politicians to meet Cleveland's fate is absurd. Cleveland's fate was the re sult of an enormous error of economic public policy executed by him when he fired his free trade message over the heads of the American farmers and made them all rally in defense of their threatened industries.

It is true that Cleveland while an exceedingly p ump was not at all a pleasing person. He lacked good breeding, good temper and good sense in the administration of his office, and in his public intercourse with his fellow men. He made a good many reckless promises, he broke a good many solemn pledges, he played fast and loose with civil service reform "and he used the patronage and power of his great office for all it was worth to renominate and re-elect himself. But there is nothing in all this record odious as it was that alienated from him the support either of democrats or mugwumps to any appreciable extent. Ugly disagreeable, boorish selfish, faithless and repulsive as Cleveland was in presidential personality he was accepted as the inevitable by all elements of his party until he made that tremendous economic blunder of public policy which was executed in his absurd and utterly ill-timed "free trade" message bearing the endorsement of Mills Carlisle & Co. This message fixed Cleveland's fate and until President Harrison commits an equally enormous blunder of fundamental public policy he will be sure of the support of the people no matter whether or no he "satisfies all the republicans of the senate." The disgruntled republicans of the senate are few in number and even if they were more numerous than they are they would not hurt President Harrison with the people by mere factious acts of personal vindictiveness, like the refusal to confirm Halstead.

There is a notable historical illustration of the powerlessness of the United States senate to injure the president with his party and the people in the case of Martin Van Buren who was appointed minister to England by President Jackson in the summer of 1831 but was rejected by the senate in December by a coalition between the whigs under Clay and Webster and a few malcontent democrats under Calhoun—a situation closely resembling that which procured the rejection of Halstead. Van Buren had been Jackson's secretary of state from March 1829 to April 1831, and had supplanted Calhoun in the esteem of Jackson, so Calhoun and his little band of secessionists knifed Van Buren with the help of the solid whig vote just as Teller Ingalls & Co assassinated Halstead with the help of the solid democracy. But this petty personal execution of Van Buren made his political fortunes for Jackson avowed him as a martyr and the Jacksonian democracy showed their resentment by nominating Van Buren for vice president (May 22 1832) and in the national election of 1836 Van Buren was made president receiving the electoral votes of all the states that voted for Jackson save Pennsylvania. The senate that rejected Van Buren shot their granny and in our judgment history will repeat itself to this extent that if Halstead cares to go to the senate from Ohio to succeed Payne whose term expires in March 1891 he will be elected as an expression of the righteous resentment of the republicans of Ohio for the unwarrantable rejection of his name for the Berlin mission. The people don't care a button about the private griefs of senators but they care a great deal about the freedom of the press and the personal courage and independence of action on the part of the president of the United States.

It is a remarkable fact in our history that no president who behaved like a conscientious fearless self reliant executive ever lost the support of the people. It is only when presidents play fast and loose with the people and their party that they are repudiated as were Tyler Pierce Buchanan Johnson and Cleveland. Jackson's infirmity of temper and errors of action were forgiven because of his ardent patriotism frankness and courage. He did not satisfy the senate, but he satisfied the people and he retained the respect. Harrison has given us a fair taste of his quality and it is but just to say of him that his nominations to public office his policy on the question of removals and appointments have increased the respect of the people for him as an independent, intelligent conscientious man. In the matter of appointments in the new states and the territories President Harrison has executed a sound and permanent reform. Indeed it may be said of President Harrison that he is justifying the wisdom of his policy which makes no absurd promises in advance of events but stops with the sole pledge that he will not only execute the laws of the nation in their letter but in their best spirit to the fullest limit of his executive powers and opportunities. The people thus far like him, not only because he tries to do well, but because he does do well.

COMPETITION FOR PUBLIC WORK

Though the report of the committee on which the common council passed the electric light ordinance by a unanimous vote over the mayor's veto was a carefully studied production, and undoubtedly was put forth upon what seemed to its authors a proper regard for the interests of the city yet THE OREGONIAN cannot refrain from saying that it evaded or missed the one point most necessary for consideration namely the point that the city ought to take advantage of the competition of rival interests in cases of this kind to get the best terms for itself that it possibly can. The statement made by the committee throws a great deal of light on the whole subject and gives emphasis to two or three reasons why the proposition submitted by Mr Markle was not considered. The principal one appears to be the objection to allowing more poles and wires to be put up throughout the city and to granting another perpetual franchise therefor. Another argument was the desirability of encouraging the transmission of electric power from Willamette falls to Portland and its distribution throughout the city. While all citizens of Portland are very desirous of seeing this brought about we are not sure that is presents an argument suitable to this case. It is hardly the business of the city to "encourage" private enterprises at the expense of the taxpayers. Moreover we may suppose that the Willamette Falls Company have gone into this undertaking to supply power and light at Portland solely for the purpose of making money and beyond doubt they will make a great deal of money. Their undertaking has a prospective value perhaps of millions. Would it then be asking too much of the company greatly as we desire the transmission of electric currents from the falls to Portland, to exact the city from payment of a "bonus" and to put up themselves the money necessary to develop a property that certainly will be worth to them so vast a sum? The use of the streets of Portland is a privilege of enormous value and in return for this privilege the city ought to get public lighting at a low rate and not be asked to build up or help to build up a private property worth an incalculable sum. THE OREGONIAN advocated competition because it saw no other way by which the city could obtain the benefits it is entitled to have. It is a principle that should be asserted and enforced in all public works. For example a city hall is soon to be built and we hope to see the work opened to competitive bids and not let out by contract without competition. The habit of not submitting public work to competition is extremely unsafe and we trust it will not become established as a principle in Portland.

The most unforgiving wretch on record died a short time ago at Bailhetville, Pennsylvania. A few days before Valentine's day 1839 he refused his 18-year old daughter money with which to buy a dress a request that disappointed her sorely. He received a few days after a valentine representing an old miser counting his money, the superscription being in his daughter's hand writing. The latter protested that she had not sent the missive and explained that she had, in company with a friend, bought a complimentary valentine for her father, the friend getting one to represent a miserly uncle and that the two got mixed and were missent. So implacable however was the father's wrath that he refused to listen to the explanation and never again spoke to the daughter although fifty years elapsed between the affront and his death and though he died possessed of large property his only bequest to her was a sealed package containing the unfortunate valentine. It is perfectly necessary for such a curmudgeon as this now happily defunct miser to have and nurse a grievance. What he did to keep in good humor with himself previous to receiving this valentine is not recorded, but it is safe to say that he was happy in making somebody miserable. That a creature so unforgiving should linger so long (as the ministers say) on mercy's side of eternity is one of the marvels of divine forbearance.

Secretary Windom's dismissal of Beecher at Port Townsend is commendable. Beecher's official record was so cloudy that the senate without dissention of party, told Cleveland they could not confirm him as collector. His appointment as special agent by Cleveland was an outrage is act but it discharged the debt of gratitude which Cleveland thought he owed to Henry Ward Beecher for his oratory in 1884 and his letter of sympathy over the Maria Halpin scandal. When the great Beecher came out for Cleveland the only effect was to recall the old story of the man who was tried for adultery and who asked and was granted the privilege of challenging to the jury. He was acquitted and when asked what he said to the jury replied "Oh! nothing except that now was the time for all gay Lotharios to stand by each other."

The price of a Pullman palace car is about $12 000. For the encouragement of the ambitious individual anxious to own his own palace coach but who feels that he cannot afford it the suggestion is made that a careful and thrifty man acting as his own porter might save enough in fees in a month to pay for the aristocratic vehicle and thereafter ride as becomes a gentleman who has worked his way up in the world.

Reservations on any steamship line in the Atlantic service to Europe can be secured at Northern Pacific ticket office No 121 First street corner Washington.

MEETING NOTICE

Portland Lodge No 55 A F and A M stated communication will be held this (Friday) evening at 7:30 o'clock. Work in M M degree. By order of W M. SAMUEL GILL, W M. I W TRAFT, Secretary.

DIED

In East Portland April 4 Ida L. Wells beloved daughter of Theodore and G H. Wells.

In this city April 2 1889 Mrs. Mary F Hawks. Funeral today at 2 p m. from Methodist church, corner Third and Taylor. Friends invited to attend.

In Joseph Or March 31 1889 Nesta Margaret, daughter of P M and Emma C. McCully. Aged 6 years 4 mo. and 26 days.

ON SUNDAY AFTERNOON, APRIL 7,

Free trains will be run on the O. & C. Railroad from L street depot, East Portland, to the Kenilworth Tract leaving at 1, 2, 3 and 4 o'clock, returning at 1 30, 2 30, 3:30 and 4 30 o'clock.

The Kenilworth Tract is situate on the high sloping ground, east of the O. & C. Machine Shops, and for view is unsurpassed by any property on the market. It is all cleared and several springs of pure water are on the land. The property is now on the market and the above excursion will afford a good opportunity to parties desirous of investing in choice residence property. The motor line of which the greater part of the subsidy has been subscribed, will run along the south boundary of the tract, and thus facilitate easy access to town. The management and sale of this very desirable property has been placed with

PORTLAND AND VICINITY.

HAYNES HELD TO ANSWER—John Charles Haynes, who was released from jail Wednesday, the grand jury finding not a true bill on a charge of larceny preferred against him, was examined yesterday before United States commissioner Laul R Dealy on a charge of representing himself as Charles H. Haynes, and collecting money on a post office order belonging to the latter While in jail Haynes had a letter brought to him addressed to C. L. Haynes, which he opened and broke, inclosing a postal order for $1, sent George Smith, a colored boy, to the postoffice with it, signed in pencil and accompanied by a note, by means of which Smith secured the money, but did not give it to Haynes While in jail Haynes told James L. Cleveland a untruth, that the letter was not addressed to him At his examination he acted as his own lawyer and quickly demonstrated that he had a fool for a client. He was held to answer in the sum of $400, and Smith and Cleveland were held as witnesses in $250 each

PORK AND BEEF—A train of twelve cars loaded with live hogs from Nebraska was at the stock yards yesterday bound for Seattle There were also several carloads of Oregon live hogs for which 6¼ to 7 cents per pound, live weight, was demanded This is a high price for live hogs, which should sell for about 4 cents especially as these were stock hogs which must be fattened before they are fit to be killed Our farmers should see to it that hogs are not so scarce next fall, as it is bad enough to import hams and bacon, without bringing in train loads of live hogs There is plenty of excellent beef in the market now At this season fine beef used to be common, but now that farmers have taken to feeding their cattle instead of letting them starve, there is no blue beef but plenty of most excellent quality, which is a very good thing for all concerned.

OF INTEREST TO EVERYBODY—Messrs. G H & C F Hudson—*Dear Sirs* The concert grand piano you furnished the Ovide Musin Concert Company at Plattsburg is one of the finest I have ever played upon. You may indeed be proud to represent the Hallet & Davis Piano Company in your territory They make an instrument that for nicety of action (so responsive to the most delicate changes of touch), rich and sympathetic quality of tone and sustained singing capacity, stands in the very front rank of the pianos of the day, both in Europe and America, and has never been surpassed Edwin M Schonert, November, 1888. It can be stated here for the benefit of the music loving people of Portland that The Chicago Music House Klein & Day, proprietors 251 First street, are the sole agents in the Northwest for this magnificent instrument

RAILROAD TO MOUNT HOOD—A gentleman speaking of the proposed railroad to Mount Hood yesterday, said "Such a road would be one of the best paying investments imaginable. It would pass through a splendid section of country, and would tap some of the finest timber land in the state. It would be a fine thing for the city, as it would attract more tourist travel than even the big hotel No other city on the coast could offer such an attraction as a three-hour's ride by rail to one of the grandest snow peaks in the country, and thousands would make it a point to come to Portland merely to make a trip to the glaciers or climb the grand old peak It is only a question of time when such a road will be built, and it will not be a long time either

CARP AND CATFISH—One of the numerous small boys fishing from the wharves yesterday, caught a carp weighing over three pounds A Chinaman offered him 75 cents for the fish, but the youngster wanted $2 Carp are, comparatively speaking, scarce, but "they don't come high" nor are we "obliged to have 'em. The carp and catfish are established in the river and have come to stay but the longer it is before they become plentiful, the better After one has been out in the woods for a week or two, living on lunch straight, a catfish or a carp forms a very agreeable change, and under such circumstances may be called a good fish, but cannot be considered so under any other circumstances, In a country where good fish are as plentiful as in Oregon

"STURGEON PIE —Since the business of catching sturgeon for shipment East has been engaged in extensively here, a new article of export has been found in the spinal marrow of these fish Over a thousand pounds of this article has with in the past month been shipped to China, where it is used for making pies. Sam Weiler said west pie is a verry good pie when you know the woman wot made it and pe haps sturgeon marrow pie might be good if one were intimately acquainted with the Chinaman who manufactured it, bofore culinary genius should try his hand on the dish and give the public the benefit of his experiment so that if the pie is good the exportation of the marrow can be prohibited

A BAD 'SPECK ON ONIONS.—Farmers who held on to their potatoes and onions this spring missed it. Prices have gone down and down and neither potatoes nor onions appear likely to bring enough to yield any profit. Some of the farmers in the vicinity of Beaverton, a short time since, shipped a lot of onions to San Francisco by way of Yaquina evidently thinking that dealers here were not paying them enough The venture proved an unfortunate one, the onions selling for from 25 to 50 cents per sack The weather was so warm that the onions sprouted almost as soon as landed, and of course this prevented them from bringing a good price, even if there had been a good demand for them.

INCREASE OF FREIGHT AND TRAVEL—Wheat is still coming in over the narrow gauge in a steady stream, and large quantities of oats are also arriving. With the present facilities for transportation in this line it looks as if there was enough grain along the narrow gauge lines to keep them busy until the new crop comes in The amount of merchandise being carried south over the lines has increased greatly within the past year, showing that the country is filling up and trade increasing. It is reported that the steamer T A Stevens is to be chartered to ply as a ferry between the cemetery landing and Sellwood and Milwaukie, to connect with the narrow gauge road.

MR. HOYT'S HEALTH IMPROVED—Mr Charles Hoyt has partly recovered from his recent illness, and will leave in a few days for Hood river where he will make a short stay before leaving for Denver, where he will remain until his health improves. His brother Ralph will accompany him Owing to his intended departure he has sold his interest in the firm of Hoyt Bros. to his cousin, Mr George W Hoyt, for a long time employed at the wholesale drug house of Snell Heinitz & Woodard The other employes of the drug firm presented Mr Hoyt a handsome locket when they learned that he was about to leave them and go into business for himself

FUNERAL OF E T HARRIS—The funeral services over the body of E T Harris, which took place in Geo H Rivers undertaking establishment yesterday afternoon were well attended The services were under the auspices of the Spiritualistic society and were conducted by Colonel C A Reed who made a brief address He held that there was no death that the material body simply returned to dust while the spiritual body, which was within it, survived and was born into a spiritual world The body was buried in Mount Zion cemetery

THE TRINITY CHURCH LECTURES—Speaking, about the communication of E V A in yesterday's OREGONIAN, protesting against permitting laymen to lecture in Trinity Episcopal church but because there was any fault to find with either the lectures or the lecturers but because he held there was no authority for such proceeding a member of the church said In those lectures the layman simply stands on the platform and does not in any sense occupy the pulpit desk or lectern A layman can address a congregation and not violate the rubric.

IRELAND VS CHINA—A small woman and a medium sized Chinese laundryman had a dispute about a wash bill near Greenwich dock yesterday An amicable settlement being impossible the Chinaman muttered something and started off with the washing but came to a stop when the woman wound her arm around his queue and nearly pulled his scalp off. Then she rolled her victim down and covered his face with mud and walked off with her clothing while the Chinaman was endeavoring to make himself look like a human being

THE FORTHCOMING HISTORY—Mr W S Chapman left on the last evening for San Francisco to be gone six or eight days in the interests of the North Pacific History Company The chief object of his trip is to secure the speedy completion of the portrait work for the forthcoming history The company have four historians at work who have promised to have the copy all ready for the printers by May 1 Mr Chapman will let the contract for printing the history before he returns, and expects the work to be issued from the press by the 1st of July

CHINESE PHEASANTS FOR DINNER—Chinese pheasants have become so plentiful in the valley that hotels are serving them for dinner in lieu of chicken, said a merchant who returned to the city yesterday At Albany I was served what was down on the bill of fare as chicken. I saw through the deceit and confronted the hotel keeper with the facts and he confessed As the pheasant was very palatable I did not press my curiosity to the extent of asking him how he obtained the birds

COMPANY ORGANIZED—The Northwest Cold Storage and Ice Company has organized by the election of Mr C H Prescott as president, John C Lewis vice President, and Wm McCraken secretary and treasurer The company has determined to erect a building 150x200 feet adjoining the Albina ferry landing The contract for piling for the foundation has been let to Mr Joseph Smith who will begin work on Monday The machinery has all been ordered and it is expected to have the establishment ready for use by June 1

STREET SPRINKLERS IN DEMAND—Whew how the wind blew yesterday Great clouds and whirlwinds of dust were driven through the streets, blinding people and making things generally disagreeable Water would have done some good on the principal streets.

INSANE MAN JAILED—Officer Mott locked an insane wood chopper named James Kelly up in the police station last evening He imagines that some woman has been feeding him on strychnine for some time past. He will probably be examined to-day

THE WRONG HAT—That's what he got. He should have gone to Kohn's, corner of Second and Morrison streets, and got what he wanted Prices lowest in town.

CORNER OYSTER CHOP.—Gentlemen who want the best will should get their suits restored Kohn's, corner of Second and Morrison.

A MOTOR LINE TO WEST PORTLAND—Articles incorporating the City and West Portland Park Motor Company, were filed yesterday by E T Howes, J E Kerns and J E Bennett The object is to build a motor line from Portland to West Portland and West Portland park and to any other point in Multnomah, Clackamas or Washington county The capital is $60,000 The West Portland Park Association was incorporated by the same persons. Capital, $80,000.

ANOTHER CHANCE FOR LIZZIE KLEIN—Seven teen year-old Lizzie Klein, indicted for stealing jewelry from the dwelling of E Wedeking, has been surrendered to the custody of the Boys and Girls' Aid Society, and an effort will be made to secure a home for her She was crying bitterly when she was brought into the criminal court for arraignment yesterday morning, but she brightened up considerably when the district attorney consented to give her to the care of the society

ATTEMPTED BURGLARY—Wednesday night burglars broke into the residence of Mr James R Cameron and began ransacking the house They gathered together a quantity of silverware and took it to the basement, but were frightened off They gained an entrance by a window but had also cut through a panel of the basement door The police are at a loss to know who the thieves are but are inclined to think they are Chinamen

SOUTHERN PACIFIC PROPERTY IN OREGON—The Southern Pacific Railroad Company has filed in the county court a statement showing the value of its rolling stock in Oregon to be $807 058 Of this amount $1,7 200 is set down as the value of forty-eight locomotives and $24 200 as the value of twenty nine passenger coaches. The company has 47¾ miles in Oregon and the pro rata per mile is fixed at $645 72.

JESSE FARRAR'S CONDITION—Dr F L. Irvine second assistant physician of the insane asylum at Salem yesterday informed an OREGONIAN reporter that Jesse Farrar's condition remains much the same as when admitted to the asylum He is still wild, noisy and destructive, and refuses all food and medicines He is getting weaker all the time and if the wild delirium does not cease he will not last much longer

RETURNED THE INSTRUMENTS—Dr Dickson called at THE OREGONIAN office yesterday to say that Dr Smith who borrowed two surgical instruments from him, had returned them and felt rather hurt that his delay in doing so had caused him to be suspected of dishonesty As he had promised to return them at once he has only himself to blame in the matter, as no one wished to do him an injustice

LEASING THEATRES.—Manager J P Howe returned from Tacoma yesterday, where he has been looking after the New Germania theater, which he has leased there. He leaves to-day for Spokane Falls where he will add another theater to his chain. Tacoma and Spokane are to be congratulated on this arrangement as they will hereafter secure all the great attractions that visit Portland.

A GOOD RECORD—Ex Purser Dillingham receives many congratulations on his having abandoned steamboating, and become a business man He is proud to say that during his sixteen years as a purser on the Columbia and Willamette he has never met with an accident and has never had a quarrel with a passenger Mr D O'Neill is yet to be heard from

AN INGENIOUS DEVICE—How to show lots of parasols without taking up the whole store, has puzzled many a dry goods merchant At the parasol sale of J Selling & Co., which takes place to-morrow, will be seen an invention of Mr J R Mellis, by which on a space of four inches in width along the center table, a display of 500 parasols is made

CHARLES H DODD TO LECTURE—The third of the series of lectures on the Evidence of Christianity by laymen of Trinity Episcopal church, will be delivered in the church Sunday evening by Mr Charles H Dodd The subject allotted to Mr Dodd is the Influence of Christianity on Practical Life

READ THIS—At St Paul's M F church this evening, corner Sixth and Hall, Rev Ross C Houghton, D D will lecture to the Young People's society on "Sunrise on the Himalayas" This learned and eloquent gentleman speaks from what he himself saw and a rare treat will be served to those who attend Admission free

NO SERVICES THIS WEEK—Dr J Blogh, rabbi of the congregation Beth Israel writes the following note "Owing to the unfinished state of the vestry of the new Temple Congregation Beth Israel no services will be held this Sabbath The children of the Sabbath school will attend at regular time

DOGS BY MISCHIEVOUS BOYS.—Some mischievous boys set fire to several barrels filled with excelsior in the rear of the Dodd block on Front and A streets yesterday afternoon The blaze burned quickly and but for the timely and efficient action of Hose Company No 1 would have spread to the docks.

CALVARY PRESBYTERIAN CHURCH—The Y P S C E. gives a sociable to night (Friday) at 7 30. The arrangements made for it are such as to insure the gathering being an enjoyable one An interesting programme has been prepared

TO MAKE REPAIRS.—A force of carpenters has gone down to make repairs to the light station at Fort Canby They will put a new roof on the light house a dwelling build a lot of sidewalk and put the station generally in first-class order

STREET CARS ON SECOND STREET—Yesterday the Multnomah Street Railway Company, put two cars on its second street line and ran them regularly during the day connecting with the main line on Washington street.

STRAWBERRIES—The first strawberries of the season were received yesterday by Levy & Speigl, commission merchants 113 and 115 Front street. It begins to look like spring

PEEK A BOO—Go around and take a look in Kohn's corner window, see the new styles in neckwear Grand opening Saturday at corner of Second and Morrison

LINNTON LEATTED—The plat of Linnton, a station on the Northern Pacific, eight miles north of Portland, was filed yesterday by C F Bunker and wife

A NICE BREAKFAST—Mrs Spilman who has the refreshment stand in the city park is prepared to serve a nice breakfast to persons who take a morning stroll to the park

GLUTEN FLOUR—A fresh supply has just been received by Woodard, Clarke & Co, First and Alder streets

MAMMOTH PANSIES at Burkhardt Bros., florists, Twenty second and G

THE JUSTICE SKIPPED WITH THE BAIL

Have you heard anything new in regard to the man charged with robbing your safe at Warner? asked a reporter of Mr B Goldsmith yesterday

"I believe he gave bail and skipped" was the reply

"Just so It reminds me of a case which happened over in Washington A man there lost $800 which he had in a trunk His hired man was suspected and on his being arrested the money was found on him The justice of the peace who had the case in hand, admitted the thief to bail in the sum of $800 and he put up the money he had stolen Next day the examination was postponed for two days, and when the chief came around to be fried it was found that the justice had skipped taking the bail with him

The moral of this story is not easy to be imagined

SOL SMITH RUSSELL IN "BEWITCHED"

His Last Presentation of 'A Poor Relation Witnessed by a Large Audience

At the New Park last night for the fourth time this week Sol Smith Russell kept a large and enthusiastic audience in a most delightful humor from the rise to the final fall of the curtain to his artistic characterization of Noah Vale in A Poor Relation

To-night there will be an entire change of bill, when Mr Russell will enact an entirely different role and a side-splitting farce-comedy, entitled "Bewitched," in which he will give several of his justly celebrated songs sketches and specialties, among them He, She and the Postman "There you are, there you are," "The Howling Swell" and J Whitcomb Riley's dialect poems "Nothink to Say" and "Good Bye Jim

The house should be filled with all lovers of genuine legitimate comedy

TIMBER CULTURE CLAIMS.

SPANGLE, W T, April 2.

TO THE EDITOR OF THE OREGONIAN

The late administration did many things which worked hardships on settlers For example, the law in regard to timber culture claims is well known, but the late secretary of the interior was not satisfied to see a man get a patent to 160 acres of land after eight years of labor but made a ruling that he had to cultivate his trees five years longer, making in all thirteen years to acquire a patent to land honestly earned in eight years.

Now, the new republican party has been noted for its good laws and good judgment in executing them. It would be a great boon to the settlers in Eastern Washington if the new secretary of the interior would set that ruling aside and give us a chance to prove up and get titles to the lands we have homes by earned J W H

BUILDING PERMITS.

Superintendent of Streets W S Chapman yesterday issued building permits as follows

To S Richards, to build a two-story house on Thirteenth street between E and F, to cost $1400

To J Lawlor, to build a stable at Fourteenth and C streets, to cost $1,600

BRIEF MENTION

"Never, never never did I get the meal, Miran dy, that I got at the New York to-day," said Mr Haywood That countryman's head was level.

It is only for the best interests for all those in search of a fine piano to try to get the best while they are buying one The opportunity to examine the matchless Decker Bros', kept only by The Kohler & Chase Music House, 71 Morrison, should not by any means be missed.

"Are you "all run down" Hood's Sarsaparilla is the great building-up and strengthening medicine.

BAKER CITY, OREGON.

A Place That Duplicates What Denver Was In 1872.

And Ten Years Hence To Be the Equal of the Denver of To-day—Wonderful Mines, Producing Ore That Has Netted $2000 Per Ton, After Shipping 2000 Miles.

BAKER CITY, Or., April 2, 1889.

Among the many great soldiers, orators and statesmen known to American history, few have been held in more sincere remembrance for their patriotic utterances and deeds than Oregon's favorite, the dashing soldier of Ball's Bluff fame, Colonel Baker. That he lives in the hearts of his countrymen is shown in the frequent re-occurring tribute paid to his memory. It was this sentiment that prompted the naming of this city, and the expiration of another twenty-one years (the time that has passed since habitation first commenced here) there will spring up at Baker City a city so large, that all America will know it, both for its own magnitude and commercial greatness, as well as its being a monument to the soldier after whom it was named.

The declaration of the coming growth of this city is not an idle one, nor is it made as a morsel of flattery to the people now here; but it is published in sincerity and in the conviction that the foundation of which other great cities have been built, is positively here. Besides, this growth is an irresistible one, to which neither boom articles, boom times, nor boom men will contribute one iota, or in any manner of way assert, save in calling attention to the one indisputable fact, viz. That a liberal second Denver is found in the existence of Baker City.

There are other localities in Washington and Montana territories which bear a striking resemblance to Denver, Col.—to striking that they to for there are four of them) are each styled, "second Denver." But if the claims based upon mining possibilities (with certainties,) of the three four were concentrated as a unit, even then these consolidated resources would not equal the certainty of resources, with the inevitable positive duplication of causes for growth which Denver had that Baker City now possesses.

To the experienced miner and mining capitalists who have been here and made investments, the review is not only useless, but distasteful, simply because those interested are, like the writer or the rest of mankind, selfish enough to wish to hold and occupy good things without inviting a horde to divide with. But to those having no knowledge of Baker City's resources, there awaits a series or succession of surprises so flattering to the future of this city, that what they are fully believed and known, good things will begin a growth right here that will be the astonishment of all Oregon.

Thousands on hearing or reading the above will mentally say. "Well, Baker City's got it now, and has started in on the double quick." That is true, but not in the sense the above implies. Nothing but a total ignorance of the real facts of these mines has kept Baker City down to a population of four thousand. Denver became a rendezvous for the Pike's Peak miners of 1859. From the time of her first location up to 1872 Denver did not have any larger population than Baker City now has. Quartz mining and economical mining machinery were practically unknown to Denver at that period, nor had mining discoveries and developments been very promising. In other words Baker City to-day is about parallel to Denver in 1872, except that the very best of mines are here, are being gradually developed, and now are about unfolding in all their greatness. The misfortune has been that the very few here who have some capital—and they are few—are not the ones who herald the great richness of these mines. It is but natural that they should not, at least until they control more mines.

There is another similarity of Denver in 1872 and Baker of now, viz: The men holding the prizes generally were and are poor. This is true in a large majority of the localities interested. Then in Denver, those advised of the wealth (the same prevails here now) were powerless to take out the wealth for want of means, and equally powerless to convey in a convincing way to the outside world the real facts in the case. To illustrate: In 1872 the knowledge and experience in Denver, in machinery and mining, were less than in Baker to-day, but this advantage has been "all" to Baker for want of capital, suppose, for instance, as an imaginary case, that gold quartz had been discovered in Iowa which netted $2000 per ton after all expenses of shipping it 1000 miles, and that a man with plenty of means and known to the whole country had taken an experienced superintendent to Iowa, employed 200 to 500 men, and kept at mining for several years. The report goes out of this great find; hundreds may flock there and not one in the whole lot with $100,000. These new miners scour the country, discover hundreds of prospects that seem silent cal with the community, and of the great find. The rich mine has dug down in the earth 700 to 800 feet. The poor man cannot do this. The rich gentleman is taking out only a little streak of rock, not over four to eight inches wide, and leaving the walls each side of the pay streak as they are. Under no other circumstances could they have been. In fact it is not edingly rare that gold can be seen in even the richest of rock. Well, the poor men being powerless, for want of money, flee the country, but continuously report that good paying gold has been found in Iowa, but that they know what gold is. The noise attracts the attention of capital, which never buys on a blind. This capital will trust the man that has it, but will not value the word of the poor miner. What does capital do? Why, of course, it communicates with the wealthy man it knows to be in supposable Iowa mines. His reply is that he is only shipping from fifty to 150 tons of ore per year, and there is no bonanza in it. This settles Iowa until in the progress of time capital finds the wealthy producer and the world knows Iowa mines, and then this foreign capital is inspired to an investment in Iowa. Thereafter the prospects of Iowa brighten, and the world knows of those good-paying mines.

This supposable case is the exact duplicate or counterpart of some superior Oregon mines, and they are in Baker county. Now, look out for the future, in which Oregon will go to the front as one of the richest mineral-producing states in all America, and this is coming. Yes, the future of Baker City and the Baker County mines will duplicate the yield of the Butte camp and the history of Denver. It will not take as long to hustle Baker City to the front as it did Denver, that is, from this time on, for there are hundreds of well developed prospects here only awaiting money to make them "Drum Lummons," etc. There are miners here who, like the first owner of Drum Lummon, have stuck to their claims for years, and with their own hands, pick and shovel, etc., are annually getting out the needed "grub stake," not able to do more. These men only ask for capital. They are willing to give up nine-tenths, as the one-tenth means ease and comfort to them, but they never will give it all up. The mountains of Baker county will yet yield up more wealth than has yet been gathered in Oregon, all told to date, from all prior sources, if money will take hold of these mines. Must truly, Oregon does not know what is within her border, for if she did, long ere this, instead of a half dozen well-worked mines in the section, there would be a hundred for each one now worked.

A BUSY PLACE

TOTAL GROSS VALUE OF LOCAL BUSINESS FOR 1888, OVER TEN MILLION DOLLARS.

Baker City was located in 1867. It had a population of 1000 in 1870, 1500 in 1875, 2000 in 1880, 2500 in 1885 and over 3000 in 1888. It has had the most natural steady growth of any city on this coast. It has no city indebtedness, at least that could not be wiped out on demand. The county of Baker is also out of debt. The income of the city is sufficient from licenses to meet all requirements, so no city lot is assessed. Baker has always been wise enough to exact a heavy saloon license, which keeps away the rowdy element with the better conducted saloons, and the least of them for the population of any mining town in the United States. A splendid new schoolhouse has been recently constructed, certainly one of the handsomest buildings in this line in the whole state. The school population of the city is 775 and of the county 1500, while the population of the city is about 4,000 and of the county 7000. A commercial college here is well patronized, having now about fifty students. This City has recently accepted from the builders, contractors the new water works. The system is by wells, identical with that of Helena, and in the sinking of the well the existence of artesian water was established. Its supply of pure water is practically unlimited. It has gas works, telephone system and a recently completed creamery, with 1,200 to 1500 pounds capacity per day. As the city is in the midst of cattle ranges, on which high grade animals are kept, it stands to reason that this industry will soon develop into a material business. This creamery is to stock company. A delay occurred in placing the stock. Real Estate in Baker City begins to move with the alacrity of the territorial towns. It required only from February a year ago to last December to fill an 80-page record book with real estate transfers. Ten cents sized book required to free years previous to fill. A striking and conspicuous feature of the county records of Baker county is that foreclosures of mortgages is unknown, even the mortgage record is a rare bird in most parts. The population of the county is chiefly American. Among the foreigners here besides the Irish and Germans predominate the Scotch, not only in the mines.

The Scotch Bank of Baker is a splendid institution of the kind. Its average daily deposit balance during a week past was $75 per capita a wealth ranks No. 1 with the Oregon towns. This assertion would go without announcement of the local business had been given prior to the statement.

There are five daily trains pulling in and out of Baker, with an average of 10 cars per day. The merchandise received at this station, principally, indeed, nine-tenths of it, for Baker merchants, averages 10,000 pounds per day. The out going shipments are equally as surprising. Two million feet of solid timber alone, principally for salt Lake, was shipped last year, the total shipments of lumber being about 4,000,000 feet. The value of $75,000 in railroad ties was shipped in 1888. This season shipped and handled, as the products of Baker county, 150,000 pounds of wool, 2000 hides and 10,000 pelts. While in the shipments of rich ore the number of tons exceeds a half million. This ore must be rich. It is shipped to Denver, Colo., at a cost of $50 per ton—the uniform price or cost from these mines to Denver; but every ton returns largely more net profit, over and above every expense, than the cost per ton of shipment. In addition, 150 cars of sheep, 200 cars of cattle and 50 cars of horses make up the gross shipment, to say nothing of wheat and other products, including hay, by no means a minor item. Thus it will be seen that the shipments foot up largely over six million pounds of merchandise and products in and out of Baker annually. This has increased at the rate of 25 per cent. annually in the past two or three years, with a promise of a greater increase in 1889.

The local business brings the surprise, however. There are twenty-eight general dealers. One firm sells $50,000 per year, another $100,000, the next $150,000, and the next $300,000, and so on until the very small dealers are reached. The whole among the mercantile establishments reaches $2,500,000. This comes lumber, which equals the above figures, or nearly so; then the rich ores, the wool, sheep, cattle, horses, breweries, saloons; and on top of this the freight receipts, so easily reached by any merchant from the number of pounds given, and the grand total of Baker City's business exceeds the magnificent figure of $10,000,000. This exhibit should convince the most skeptical that Baker City and Baker county are among the foremost business sections in Oregon or in the West. And yet the business has been so quiet, modest, unobtrusive, yet continuous, that her own people hardly realize the grand volume until they themselves attempt the estimate of it.

Here, then, is the foundation for the coming duplicate of Denver. Indeed, he will be a lucky man who is not allured to "boom" towns, but quietly locates in the midst of such prosperity, where agriculture and stock intermingle with timber and minerals—each interest growing annually as the population has grown. In the natural increase, which is accomplished without boomers or parades, the future will prove a substantiality which some of the clamorous towns will sit by and envy five years hence.

A misapprehension may arise from the statement that only twenty-eight general dealers are here. This applies to the larger dealers. There are in all lines, from cigar stores, bakeries, livery, hotels and the trades under roofs, fully 100 doing business. There are several hotels, among them large ones. But the crowning point in business matters is exhibited in the fact that two reputable and most creditable daily papers, the *Democrat* and *Reveille*, are published and maintained. The advertising columns bespeak the prosperity here. Besides these, three weekly newspapers, two issued as above and the *Blade* are handsomely maintained.

It is really a downright pleasure to visit Baker City. Its citizens are free and unassuming, but a whole-souled, hospitable and energetic people. No hide bound proclivities are here to annoy—no petty jealousies to irritate. New comers need not fear of being coldly received, for a hearty, cordial welcome awaits any and all who come with clear purpose and a desire to locate. You can find all the surroundings in social life incident to older Eastern localities. This people are an educated people, as their school statistics attest. The county has seventeen townships, the same number of school districts, with a school building in each. It must be borne in mind that not over one-third, perhaps not that proportion, is agricultural land, and that school privileges most abound here. There are two school buildings in the city. The manufacturing interests of Baker are embraced in a sash, door and blind factory, chair factory, soap factory, cigar factory and two breweries. The barley for the latter is raised at home, and it is superb in color and quality.

In the matter of real estate the prices are moderate, exceedingly so. The growing demand will soon force some good addition property on the market. There will be a pleasure to note the relative value of such property in comparison with other addition property throughout the West—say ten years hence. Here it will be found to steadily increase. In five years from now Baker City will be the second largest city in Oregon, and to secure this growth her present population can then be multiplied with the figure five. The man who owns Baker City property then will best appreciate the prophesy now made.

BAKER COUNTY MINES.

SOME OF THE "BIG MEN" ARE OWNERS OF GOLD QUARTZ MINES HERE.

Conner Creek, 20 years old, 901 feet down, 3700 feet of tunnel; working night and day; owned by S. G. Reed, of Portland.

Eureka and Excelsior, a group, owned by Richard Curgan and Mr. Fordyce, developed by two tunnels, one 400, the other 300 feet in. A twenty-stamp mill on the way. Enough ore in sight to run for years.

Columbia Mine—An extension on the south of the Eureka and E. This mine has some very high grade ore. Had a half ton that run $90,000 per ton. Developed by two tunnels and an "uprise." Owned by Steve Elkins and E. P. Cowen.

Appomattox; has 160-foot tunnel; same ledge and joins Columbia and E. & E. Owned by E. P. Cowen, Mr. Taft and Mr. Frank.

Golconda; same ledge as above; has eighty-foot tunnel, just commencing. Owned by Taft, Bentley & Co.

All these mines are on the great fissure of the Cracker creek section, which has been traced for five miles. This section and these ores have proven fabulous in wealth. A continuation of this great fissure shows its existence for ten continuous miles.

A vein running parallel with the big vein above, called the Harry M., is owned by Mix & Abord. Next to it is Gera D., owned by L. Durkee and Charles Duncan, work on both an open cut showing wonderful ore assaying $100 per ton. Work commences on this property soon.

Hurricane, owned by Seth and J. Cook; 160-foot tunnel. Ledge is a four-foot face; average assay, splendid. Has 50-foot shaft still sinking, by contract work, with a force of six men.

Moment; joins the Hurricane. This mine has been operated for twenty years from time to time, and has yielded good money. It has about 500 feet of tunnel and a fifty-foot shaft. The ledge at the bottom of the shaft is twenty feet wide. Gold crops out in rock near the foot wall.

Tamarack; same group as above. This is Incorporated by Rothchild and Wolfe and E. Hardy. Considerable development by cross cut, etc. This is free milling gold—in fact the whole camp is. This assays $40 to $50. Authorized capital, $500,000.

The following are all Cracker creek mines: The North Pole, owned by Henry Berring, of Barrey Bros., C. A. Bacon and I. H. H. Williams. Has lower tunnel of 400 feet, upper of 100; ledge is thirty-five feet wide where tunnel goes in. The best pay streak is six feet wide. The rock occurs in bunches. Some assays run to $275 per ton; any quantity of them at $50.

Ten Strike joins North Pole on the north. This mine has been bonded to Russell Harrison, the son of the president. The mine has a shaft sunk and a tunnel with cross-cut.

The Villard and the Chloride are on Rock creek. These, with many others, are all on the Cracker creek fissure. These mines continue until claims cover the entire summit of the mountains and thence run down on the other side, clear to Rock creek.

The Forest King and Mulkey are grouped, but owned separately. These mines reach the summit and as the ore crosses the mountain it graduates into a silver ore, assaying, the yielding from $50 to $200 per ton. This in fact, with discoveries in the upper part of this belt, establishes galena which furnishes all needed fluxes.

Cable Cove, on Silver Creek, is a good property. The California another. It is opened by four tunnels, the main one being 1000 feet. Has struck 100, 80, 50. This was worked all winter; owned by Cabell Bros. Ore is high grade silver; shipped to Denver. It nets upwards of $100 per ton after paying $50 freight.

Eagle ledge, owned by Young & Murphy, runs parallel to California. This is exceedingly high grade galena. Tunnel 330 feet, which strikes a 4-foot body of ore in the face assays from $60 to $250. Owned in Baker.

Herculean, same ledge and ore as Gray Eagle. Ore milled $100 to $125 per ton. Ledge 9 feet. Owned by George B. Manning, San Francisco.

Baby Mine; continuation of above and identical with it. Owned by E. Hardy.

Old Virginia; owned by Cabell Bros.; same ore as above.

Minerva, also the same clear through the tunnel. Owned by Faull & Hardy.

Elkhorn, head of Pine creek, only 8 miles from Baker; has 350 feet tunnel running the course of the vein, which is 3 to 6 feet wide; rock is free milling gold ore; assays throughout vein $20. Owned by Baisley Nelson and Dr. Barber, the latter of Portland.

Elkhorn No 2, has 500-foot tunnel on same fissure. This mine has shipped considerable ore, which netted $200 at Denver. Owned by Robbins and others in Portland.

The Phœnix in Robertsonville district. Ore, free mill ng gold, assays $100. Owned by Barry Bros., Barnett & Choate. This mine is now worked with the antediluvian "raster," for nothing else offers, and yet it pays well.

Wolley joins the Phœnix. It has a 200 foot tunnel; ore runs from $50 upwards—free milling gold. Owned by Bowman & Co., Walla Walla. This mine has just started up and is good property.

The Pine creek country is now coming out grandly. On Tuesday last they "struck it rich," after tunnelling all winter. The find is a bold face of rich gold ore

The placer mines in Baker county are many, but the larger ones are Nelson mine, fifteen years old, by drain. California parties now own it. There are several, but this is the largest.

The Mann & Trovatlin placer at Parkersburgh, and the Red valley placer, the latter owned by a Concord, N. H., syndicate, and any number are all worked and paying.

In Union county there are hundreds of mines, all tributary, and which buy every dollar of supplies in Baker. Many mine owners buy in La Grande and Union, but the Bradley Mining Company, which owns a ten-stamp mill and a large group of mines, buys here as reported, viz: The Forest Queen, Competition, Red Jacket, Hoss Pimmel, Last Chance, Mayflower, Moonshine, Stella, Daniel Drew group, Allen Mine, Belcher, May Queen, and so on.

The Big Aleck was formerly owned by Hardy & Co., of Baker. The property in Baker county has been sold to a rich syndicate. This mine is one of the most promising in the camp. It is astonishing, as showing a front of rich ore so wide that to tell it causes doubt. It will come out some day with an immense reputation.

The above list includes old established mines down to well developed and certain prospects, but the larger percentage of the above have taken out and shipped ore. Who can deny that good mines are here?

REDUCTION WORKS.

Within fifteen months past the city of Helena, Montana, Great Falls, Montana, and Tacoma, W. T., each in a general "write up" of their respective interests, called attention to the fact that smelter and reduction works were badly needed. The demand for these works came from the towns in the order above named, and the works were built in the same order. Tacoma may not have hers yet completed; while in the meantime Portland begins the erection of such works.

In Helena and Great Falls, New York and Chicago capital built the works chiefly, although Helena raised her one-third of the amount, which represents about $500,000. Let us hope that the notice of the very great need of such works at Boger City will inspire either Portland or Eastern capital to the erection of works at this point. Some of the most reputable men in the country, men who have no mines to sell, stock, salt or other things to speculate on or with, have said in sincerity that the mine of Baker county could furnish materials of tons of gold ore—rock that assays from $10 to $50 per ton and more—that now is practically worthless for want of reduction works. It costs $20 per ton to ship to Denver. But few concentrators are in this camp—really but one as now known—and comparatively few stamp mills, solely because the outside world is wholly unacquainted with the mining belt. Reduction works are badly needed—in truth, a smelter and reduction works would pay most handsomely. The owners need never fear that any combination will defeat them from getting ores. They do not have to work other people's ores, they can buy the entire product of the camp. It is just what the camp needs, which would open up more mines—now but "prospects," for want of a market for the ores—than any camp in the Rocky ranges.

This is not a poor man's camp. Men are here who have traversed the entire mineral circuit of the world, and here they hang awaiting the outcome, and working for "grub stake" until their deliverance comes. Anyadvice that by the introduction of works and machinery would open up the Baker City and Union county mines, could coin annual dividends larger than their capital invested, and also open up in Oregon a camp that will surprise the world. Tells us this man, what think? There are but three mines in this belt that are yet below the third level—300 feet, while the Comstock reached 3000 feet, and in Butte the Alice and others are from 10 to 1600 feet down. The mining problem in quartz mines is solved by depth—the wealth is down. If the mountain of "float" all assays well, what will the ore in the bowels of the earth do? This is a coming camp, and twelve months from now the Coeur d'Alene, Helena, Butte, Okanogan and Colorado camps will be running their mines this way, wondering why they never knew of it before.

If any one acquainted with ores will come here and run his eyes over the big "home" cabinet of Durkee and Dill, in this city, which is filled with ores from the rich fields in this county, indeed he would never again doubt the existence of splendid ore here. Of course such cabinets are made of the best, for this one is worth several thousand dollars to specimens alone; but after seeing it here, then go out to the mines where it comes from. Once upon a time some calculating schemers did work a fraud in this section on some outside parties which gave Baker county a "black eye." This does not prove the absence of rich ore. Upon such a theory the world should refuse to believe that gold coin, for there is counterfeit. No, let the doubter come here. Bring your experts—your educated scientific experts if you want to; he who can theorize a fortune away (while the practical superintendent is working over the tailings or waste at the works) is this scientist fed, and making it pay, too,) or bring the latter fellow; then go through these mines and see if Oregon has not more to boast of, or as much as Denver.

If you are satisfied (Mr. S. G. Reed, of Portland, must be, for he owns the celebrated Conner creek mines in Cracker creek district, twenty years old) then coin money for yourself, for these small miners, for Oregon and for Portland, by opening up these mines to the world. You need not be afraid for want of fluxes. They are here. Even galena ore is within thirty to forty miles, and great marble beds—splendid marble, too—and mountains of lime, also. Fuel is here for the cutting. Water is abundant. Coal has been found in several places—coal that the people can pick up, throw into a stove and burn, and that is all they care about. But no development of this coal has been undertaken. No one has money to do this. Those having money need it in their business, or to develop what they now own. The few rich men having interes s here seem to be holding off, or are working the rich pay streak in their mines. Senator Jones, of Nevada, put $100,000 in Camp Carson, Union county, and all last year he had a foreman there and in his placer mines putting in machinery and hydraul cs. In less than a month he will open out in full force. The Hustlings has interests here with others. Possibly capital may be "freezing out" the little fellows, but in the meantime if Portland or San Francisco money will investigate, our word for it this camp takes on new life, and thence forward copes with the big camps of the world. Possibly this is only the coke. Nature is bountiful and always furnishes in close proximity all needed agencies for the development of all resources she lays out to the world. The writer has urged the same course at the suggestion of less mineral camps now flourishing. Something brought the needed money and machinery, and he hopes this letter may attract some one who believes enough of it to find the truth as claimed. It should be the pride of Oregon to do this. When it comes, as it will, then Baker City will float along with the bigger cities, and Denver will bow to her Oregon rival as deserving in fact, the laurels so lavishly bestowed on the mountain city at the foot of Pike's peak

AGRICULTURE.

The reader need not surmise that no agricultural lands are to be found in this county. On the contrary, thousands of acres are here, and ranches, farm houses and all pertaining to agriculture are here. Wheat has been and is raised annually. There is enough to justify the erection of flour mills. In some of the valleys where irrigation is needed water is abundant and easily turned on. Wheat, oats, barley, vegetables, hay—the best of timothy, and enough to pay for the land each year. All kinds of fruit grown throughout Oregon grows here. It could not be cheaper than now—indicating its prentifulness—unless given away. A farmer brought in a few tubfuls of peaches, apples and plums the other Sunday, and so he filled what he had, hauled them in and sold them at 75 cents per tub. If a cannery was here they would not sell for that. Usually, however, they bring 2 cents per pound from the wagon. This is mentioned to prove the existence of the fruit. The finest wheat in this county will employ men enough hereafter—in fact, they always have—to make farming quite profitable. All farm products can be sold at home—wheat excepted. This has yielded so abundantly that a little ground would supply a vast population. The average yield is declared to be fifty bushels per acre. This is where duly irrigated in truth, in three out of five seasons not enough irrigation is used. Crop after crop has been raised, always in the foothills, and no water needed. Wheat has been sown on this land and yielded over the fifty bushels to the acre. An Illinois, Iowa, Wisconsin, or Dakota man cannot understand how sod can yield grain, but it does. The seed is sown broadcast. The ground is harrowed, crossed harrowed after seeding, then rolled, if it can be done, when the farmer goes a-fishing until harvest time. The average yield of oats is from seventy-five to 100 bushels per acre; barley, forty-five to sixty. No claim is made for corn, except roasting ears.

The climate in Eastern Oregon is a splendid climate. If you bring it in comparison to Dakota it is a paradise. There is more cold weather here than in Southern Oregon, but it is not cold. The mercury has fallen below zero a few times, but never has any cold over a few days. These "cold snaps" are not ever winter. The climate of Eastern Oregon is more like that of Southern Illinois than any other. Small fruits grow in abundance. Strawberries are on every ranch where fruit is grown. Vegetables, roots, and in fact agricultural possibilities are needed or wanted" Government land can be found in every part of the county.

If you seek to know more of this county in any direction or way, writ: Mr. J. J. Parker, First National Bank; Mr. E. Hardy, wholesale merchant; Mr. E. H. Mix, county clerk, Baker City, Oregon. These gentlemen are a committee of reputable and well-known business men who are not in the real estate business, who have both ng to sell, and who were selected by the people to represent them in replies to enquiries. You can ask anything you want to about mines, farms, timber, stock or new business ventures. The writer can be assured that his reply will be prompt and the answers to his question truthful, with no selfish motives to satisfy by any member of this committee.

TIMBER AND LUMBER.

A craze prevails throughout the Sound country among the unmarried men comely and of those constituting recent arrivals, to locate timber claims. Crowds of young men leave the towns and cities together, going to the woods. They take with them an experienced "cruiser," who is supposed to know all about the "lay of the land." When located, each man is in possession of 160 acres, for which he pays his first installment of 25 cents per acre, and subsequent amounts according to the law governing the same, ample time being given. This gives the owner title to 160 acres of good timber land, which if near water, is liable to be very valuable. Timber lands are to be had on government land. Why these timber "cruisers" do not vis t this part of Oregon is very queer. There is a t act of land beginning over the mountain from Baker a few miles, and running for many miles, which is first-class timber, wilderness of large and excellent pine and fir. No finer timber can be found anywhere. It is reported also to have been surveyed and all subject to entry, or that part of it which is government land. A railroad is in progress of construction—at least all the preliminaries are about engaged and it will be built to a certainty. The lumber interest of the country alone will build this if others do not. Meadigan men stand ready now to commence the work, solely on account of the timber. This one strip of timber is worth more in dollars and cents to Baker City than all the "booms" extant. The money value arising to Baker for the years to come from this source would alone maintain a large city. Those who have traversed this belt are especially enthusiastic over it because of its good size, averaging about four to five feet in diameter, and is of magnificent height. The proposed line of railway is reported as very easy and economical in construction, and the timber is on a mountain slope, making it easy work in rolling the logs into the creek.

There are to-day 16 sawmills in around or tributary to Baker City, whose daily output is 125,000 feet in lumber. More sawmills are contemplated, thus assuring this market as among the very best for lumber in Oregon. A gentleman well advised throughout the Northwest, stated to the writer that Baker county would become one of the very largest lumber points inland in the state, because no county had such desirable standing timber, undisturbed by ax or fire. The moment this proposed railroad—the Sumpter Valley railroad is well under way, its destination being the Cracker creek country, where many of the splendid mines are located, then the property of Baker City will be immediately doubled in value. This timber will bring to Baker from three to ten millions annually, and the mines can then work on the lower grade ores, those worth say only $65 to $100 per ton. The cost of getting ores from some of the mines to the railway helps to consume the $50 per ton freight. The Hunt system of railways will also aid Baker, its ultimatum being Baker, undoubtedly, and these two, with the O. R. & N. now here, will ensure a splendid future, coupled with the certainty of the mines.

CHURCHES

There are five church buildings in Baker City, the Episcopal, Baptist, Methodist, Catholic and Presbyterian, be speaking the moral tone of the place. These buildings compare favorably with like edifices throughout the West. An opinion prevails among those ignorant of the facts that mining towns do not contain a churchgoing population. A Sunday here would dispel that belief, for all denominations seem to have so large an attendance that following the dismissal of the congregations the streets present a scene suggesting that the entire population had left their homes.

ASSESSED VALUATION.

The following is taken from the records of Baker county, constituting the assessed valuation of property in the county:

	Number.	Value.
Acres of land	120,919	$424,246
Town lots		411,574
Improvements		52,787
Merchandise and implements		234,586
Money, notes, accts, stock, etc		53,020
Furniture, carriages, watches, etc		12,715
Horses and mules	8,563	200,353
Cattle	16,774	174,716
Sheep	31,598	47,345
Swine	924	2,094
Gross value of property		$2,564,436
Total taxable property		1,742,886

The above shows 57,190 head of livestock in this county.

If all the above values were multiplied by from four to six the reader would know about the value of Baker county property, or about three-fourths value thereof. The actual gross value of Baker county property—aside from mines—is better left fifteen millions than the above $2,564,436. The figures are given to show strangers the possibility of low taxation, as the county affairs are nominally out of debt.

FIRST REMARKS.

A distinguished Russian named Schouvaloff is dead. It is a very sad affair, but, sooner or later, the best of us will shuffle off.—*Atlanta Constitution.*

We print an advertisement this morning for a lost umbrella. Brethren, if we had the faith of that advertiser we would die satisfied.—*Tribune of Rose City.*

Housekeeper—I regret to say, sir, that your son and the cook have eloped. Rich Old Party—Thunderation! Then we shall have any dinner.—*Lowell Citizen.*

Another substitute for coffee has been discovered, but the announcement is not calculated to awaken much enthusiasm in prohibition towns.—*Boston Gazette.*

Calls occasionally: Deacon—Does your wife keep a hired girl? Beacon—No, she has a lady who calls occasionally and insists her with the cooking, however.—*Toledo Blade.*

"I have an account of a big landslide," said the new reporter. "What land, shall I put it under?" "Put it under the 'Real Estate Transfers,'" replied the snake editor.—*Pittsburgh Telegraph.*

The Lawyer at Home.—Amelia, be sure and put away at once everything that is of any value, because the thief who has just been acquitted on my eloquent defense is coming to-day to thank me.—*Telegraphic Editor.*

If the rich New Yorker who has subscribed $10,000 towards restoring a Moorish palace in Spain, had communicated with us, we could have told him of a house that he could have restored for half the money.—*Boston Post.*

Kind old gentlemen (to street boy)—Where were you born, my son? Boy—Denno, sir. "Ah, you don't know. What are you going to do when you become a man?" "Rob Dains." "Ah (musingly) to think the fellow was born in Missouri."—*Arkansaw Traveler.*

An Important Feature—Politician—What sort of a watch is that Jeweller—It is a repeater, sir. Politician—I'll take it. While counting his money the customer starts, stops short, turns pale and anxiously inquires: "Say, mister, is the republican ticket elected?"—*Jewellers' Weekly.*

Mrs. Brooklyn Bridge (in Boston)—Chicago is becoming a great literary center, is it not? Mrs. Boulevard—Well, we are still very modest in our literary pretensions. In what way did you mean? Mrs. Brooklyn Bridge—Why, I understand that we receive quotations from Chicago every day by telegraph. You know we are somewhat erudite ourselves—*Chicago Journal.*

"Why, Pat, what are you doing? Walking along the street backward! You must be crazy!" "Shure an' Oim not crazy at all, at all. Wan of the byes phat's mad at me sayed he'd be after me, an' up behind me I was comin' home this evening and shlug me in the neck, an' shure it's meself that's smart enough to walk backwards so's he can't stale up behind me."—*Toledo Blade.*

Literally: Uncle Moses—"Had a heap o' trouble in de Sons o' Harmony and peaceful brotherhood las' night," Jorkins—"How so, Uncle Moses?" Uncle Moses—"Why, des as I gets up to make a moshun, Jake Wilson, he gits up to make a moshun. An' fo' 'bout free minutes dar was de wust noise you ever heard." Jorkins—"Well, who finally succeeded in getting the chairman's ear?" Uncle Moses—"Nubbuddy. I got one of his cahs behoah the trouble ended. [Produces it] see dar!"—*Terre Haute Express.*

A FAMOUS BATTLE-GROUND.

On the banks of the Tippecanoe, a small stream which enters the Wabash River in Indiana, was fought the terrific battle of Tippecanoe.

In this great struggle of frontier times, the allied western Indians under the chieftainship of Elskwatawa, the "Prophet" were defeated in November, 1811 by the Americans under the command of Gen. Wm. H. Harrison.

It was a desperate, hard fought battle, and much depended upon the result.

Had the Indians been successful all barriers of defence for the early settlers would have been overthrown and the deadly tomahawk would have been active in the rapid extermination of the remaining pioneers. On the other hand the fortunate termination of the contest put an end to further attempts at open warfare by the Indians. The rich territory, so long over-run by hostile savages, was thrown open for settlement, which rapidly occurred as soon as the news of the great victory became widespread.

Naturally great praise was rendered to the success and intrepid bravery of Gen. Harrison and he was honored in many ways. He afterwards served as Commander of the Army of the Northwest, and when Indiana was admitted to statehood, he was selected to represent the state in the United States Senate. In 1840 he was elected President and his unfortunate demise occurred shortly after being inaugurated.

The forty-second anniversary of the battle of Tippecanoe found the gallant grandson of "Old Tip" leading his forces to a great political victory which resulted in the selection of Gen. Ben. Harrison as president of the United States.

The Harrisons have been a hardy race of men, sprung from old log cabin stock, which is a sufficient guarantee of its genuineness whenever found. Realizing the truth of this, great effort has been made to re-discover some of the secrets contained in the old log cabin stock of useful articles, and as the result, the famous Old Log Cabin Sarsaparilla, universally regarded as the best spring tonic and blood cleanser has been found. Not satisfied with the world wide esteem which is held for Warner's Safe Cure, the only cure for kidney diseases, the proprietor is willing to do all that is possible to establish Warner's Log Cabin Sarsaparilla as foremost among household articles on account of its purity and effectiveness.

After all, each individual has, at all times, the great battle of life or death to fight, and for security attention must be given to the best weapons which science can offer humanity in the great contest.

GREAT BRITAIN'S COAL FIELDS.

The Close of the Next Century Will See England Dependent Upon Foreigners.

From time to time geologists and statisticians turn attention to the probable duration of the coal field of the United Kingdom, says the Newcastle, Eng., *Chronicle*, and alarm coal consumers by fixing an approximately near future as the period when this useful mineral will become exhausted. The extent of the coal fields of this country is known now with tolerable certainty, and the annual consumption being also known, the period of exhaustion is simply a matter of calculation.

Mr. R. Price-Williams, a well-known engineer, in a paper on the coal question read recently before the members of the Royal Statistical Society, fixed 102 years as the limit for the duration of England's coal supply. Northumberland and Durham, though still pre-eminent as coal producing counties, do not produce so much coal as formerly, in consequence of other sources of supply having been opened up. Basing his calculations on the average rate of increase in consumption, Mr. Price-Williams finds that the coal mines in the east division of South Wales will be worked out in 46 years, those of Warwickshire in 53 years, South Wales 79, Yorkshire 90, Scotland 92, Northumberland and Durham 94, while Denbighshire and Flintshire have enough at their present rate of output to last for 250 years.

The adoption of other articles of fuel and other methods of raising steam may lead to a great economy in the use of coal, but if we continue to consume it at the present rate of increase, the close of the next century will see Great Britain, which has hitherto supplied other countries with this valuable commodity, dependent herself upon foreigners.

"An Honest Count" in Mississippi.

Washington Post, Dem.

Colonel H. C. Powers, of Starkville, Miss., who is in Washington for the present time, tells of a precinct in his neighborhood in which, in 1880, there were 160 colored republicans and twelve white democrats. On election day the colored men all voted for Garfield and the whites for Hancock. In the evening the white men took the ballot box under consideration and decided that the proper thing was to reverse the figures. When they had done this they started down the road with the box.

"I've been wondering," said one of them, "whether we did just the right thing about those votes."

This rather staggered the party. It looked like treason to suggest that anything wrong had been done. When they expostulated with him he said:

"I reckon you don't understan I me, boys. What I was wondering was whether we did right in giving the niggers the twelve votes."

All controversy was warded off by the party opening the box and throwing out twelve ballots.

Colonel Powers says this is not a fish story.

Stood the Test.

ALCOCK'S POROUS PLASTERS have successfully stood the test of over thirty years' use by the public, their virtues have never been equaled by the unscrupulous imitators who have sought to trade upon the reputation of ALCOCK'S by making plasters with holes in them, and claiming them to be "just as good as ALCOCK'S." Beware of imitations.

ALCOCK'S POROUS PLASTERS stand to-day indorsed by not only the highest medical authorities, but by millions of grateful patients who have proved their efficacy as a household remedy.

THURSDAY, April 4.

We have just received "Vessels Owned on the Pacific Coast," a handy little pamphlet gotten out by the San Francisco *Commercial News*. It is, as its name implies, a full list of all vessels documented at the various ports on the coast, giving the name of owner, where built, home port, etc., all arranged in alphabetical order by name of vessel. This latter arrangement is a decided improvement over former editions, this being the third. All shippers and ship owners will find the pamphlet of great value, and no doubt the *Commercial News* will derive its benefits in the increased good will of its many readers, for it can in no other way, the pamphlet being mailed free on application.

Merchandise received or soon to arrive by rail 1 car hayrakes, 1 car and 15 pkgs machinery, 1 car hardwood, 23 cts chairs, 21 cs hats and caps, 51 cs dry goods, 19 cs clothing, 72 cs boots and shoes, 1 car hams and bacon, 129 pkgs hardware, 25 pkgs castings, 13 pkgs plumbers' materials, 1 lot iron.

Produce receipts past 24 hours, 445 ctls wheat, 1425 bbls flour, 883 ctls oats, 771 ctls millstuffs, 155 sks potatoes, 5100 lbs hides, 19 pkgs butter, 270 sks eggs, 305 bxs green fruit, 65 pkgs dry fruit, 171 hd sheep, 19 hd cattle.

WHEAT—The market is weak and dull. In spite of predicted famine in India, failure of the crops of Australia and short crops in Europe, the market has not advanced as prophesied, but has gone the other way. As the *Commercial News* says in a review of the situation: It might be well to try the experiment Pat found so successful in getting his pig to market, and pull the other way for a while, predict an over-supply, that the market must go down, etc., and that may do what the continued foretelling of short crops and higher prices has signally failed in accomplishing. Mail advices from England, to the 4th of March, still put a good face on the matter and simply move the millennium for the bulls, which was originally placed at about the present writing, forward to June next, but by June the influence of new crops which will then be about maturing is many seconds may again upset present beliefs and teachings.

FREIGHTS—The situation shows no improvement. 35s is about the best rate obtainable and shippers are not anxious to take even that. The Otterspool has been chartered and the arrival of the Martha Fisher and Salide leave the two latter alone in the market in the position of disengaged vessels. The flour mills are loading the Dunsceore, and will the Otterspool in as short a time as possible. C. Cæsar & Co. are loading the British India and Hornby Castle with wheat. The list of vessels to arrive is very small and grows smaller every week. At present there are but eight vessels due to arrive with a tonnage of but 10,470.

The following is a statement of the registered tonnage of the port.

In port—Disengaged..... 1,626
Engaged loading..... 5,423
Engaged for lumber..... 823
Ready for sea, at Astoria..... 7,098
Total tonnage engaged..... 14,990
On the way—Due to arrive..... 10,470

The domestic exports during the month of March have been as follows:

ARTICLE.	Amount	Value.
Wheat, ctls	18,509	$ 24,320

SAN FRANCISCO MARKETS.

SAN FRANCISCO, April 4.—Receipts of produce past 24 hours included 7800 ctls wheat, 14,500 qr sks flour, 200 ctls oats, 1,000 sks potatoes, 3300 ctls barley.

Freights ... Ports—There was an active movement in ... n charters for the season of year, but holders were forced to accept lower figures than rates of last week. One large iron vessel accepted the U. K. limit, or about 27s 6d. Yesterday's engagements were the Br ship Samantha, iron, 2300 tons, at 30s 3d, and the Br ship Micronesia, iron, 1577 tons, at 27s 6d, both U. K., Havre or Antwerp. Previous grain charters during the week were as follows:

Br ships Netherby, iron, 1400 tons, and Centaur, iron, 1500 tons, both for U. K., H or A, at 28s 9d; ship Berlin, wood, 1533 tons, for U. K., H or A, at 28s 9d; ship Samuel, wood, 1566 tons, for U. K., H or A, 28s; Br bk Grasmere, iron, 1216 tons, for U. K., H. or A., 28s; Br ship Horsa, iron, 1425 tons, for U. K., H. or A., 28s 6d; Br ship Malaysia, iron, 1627 tons, for U. K., H or A., at 27s 6d; And Br ship Manx King, iron, 1020 tons, for U. K., H. or A., 27s 6d. The demand for coasters for coal loading has been light, the only charters during the past week being the ship Geo F. Manson, to load at Seattle, ship Kennebec, Departure bay; ship Louisiana, Seattle, all for this port.

Lumber charters for the week were: Ship R. R. Thomas, Puget sound to west coast. Shed bk Alliances, Puget sound to Australia. Bk Carrie Winslow, Puget sound to west coast. Schs Snow and Burgess spars, Puget sound to Boston.

Wheat—Earlier in the week under review there was a brisk business done in spot wheat. The leading exporters were liberal charterers, and the demand for grain to load these vessels brought out some competition among buyers. To secure round lots of shipping grades as high as $1 4 was paid for choice, and at $1 42½ a large amount of No 1 shipping passed into the hands of exporters. Offerings on a rush were free, enabling buyers to fill wants without much trouble. The demand during the past few days has eased off and prices are down 2½@3c; offerings continue liberal.

Options—Several calls were made during the week on sellers of buyer year and season contracts, causing a slight flurry among the shorts who were forced to bid up to cover. The advance, however, amounted to only a couple of cents. At the close prices have generally declined. To-day's sales were: Morning session, 1,600 tons buyer year at $1 42½, 600 tons at $1 43¾, 1,200 tons at $1 42½, buyer season $1 43¾.

Afternoon session. Buyer year opened $1 43¾, closed $1 42½; buyer season, $1 42½; seller year, $1 43.

Barley—Very weak, large stocks and liberal receipts daily were against the holding interest. Concessions were held out to buyers to stimulate trade in the hope of reducing accumulations, but buyers were indifferent and only bought in a hand to mouth sort of way, feeling secure in their anticipations of lower figures being reached. Choice feed offering freely at 75c with sales reported as low as 72½c. Quote feed, choice, 72½@75c; lower grades, 67½@70c; brewing, 80@82½c. Options rallied dull and declined steadily. Buyer year, 84¼c; buyer season, 72¾c.

Afternoon session—Buyer year closed at 84½c. Oats—Prices continue in buyers' favor. Receipts are in excess of current requirements and are mostly going into warehouse. Offerings are large and material inducements are offered buyers to take hold freely, but without success. Trade is very light. Quotations are: Feed, choice, $1 07½@1 02½; No. 1 feed, $1 00@1 02½; lower grades, 97½@$1; milling, $1 10@1 12½.

Potatoes—Weak and quiet. Burbanks, 30@55c; Peerless, 50@55c; Garnet Chile, 60@65c; new, 70@ 85c.

Millstuffs—Bran—Receipts liberal, market weak and prices turn cheaper. Best qualities, $12 50@ 13 per ton; lower grades, $11 50@12.

Middlings—Easier, demand light, prices range from $16 to $16 per ton.

Hops—The movement is light and of little importance. Buyers appear to be doing nothing. Stocks of choice are about cleaned up. Quote, 10@10½c.

Bags—Firmly held but little doing, buyers generally are holding off. Quote Calcuttas, buyer June and July, 8¼@8½c.

The afternoon session was made of 100,000 Calcuttas, buyer July, at 8¼c.

Butter—Week and lower.

Eggs—Weaker owing to heavy receipts.

CHICAGO MARKETS.

CHICAGO, April 4.—Wheat receipts at the seven principal points past 24 hours were 147,000 bushels and shipments 140,000 bushels.

Wheat opened strong and 2 cents higher for April, 1¾c for May, ¾c June, 1¼c July. Shortly after the opening a strong selling movement set in carrying prices down ¾ to 3¼c. The range was as follows: Opening, 78¾c April, 87¼c May, 83¾c June, 82c July. Noon—78¾c May, 81¾c June, 86½c July. Closed weaker—82¾c April, 92¾c May, 80c June, 80¾c July.

Provisions—Pork, $12 50 May. Lard, $7, May. Ribs, $6 20, May.

CHICAGO LIVE STOCK MARKET.

CHICAGO, April 4.—Cattle—Receipts, 11,000, strong and active; buyers, $4 20@4 65, steers, $4 35@4 40; stockers and feeders, $2 40@3 60, Texas cattle, $2 25@3 60.

Hogs—Receipts, 15,00; slow and 5c lower; mixed, $4 55@4 80; light, $4 70@4 95.

Sheep—Receipts, 3500; strong, natives, $3 90@5 50; Westerns, corn fed, $4 00@5 20, Texans, $3@4 50.

NEW YORK MARKETS.

NEW YORK, April 4.—Grain freights to Liverpool by steam, 2½d per bushel.

Wheat—Quiet, about steady. Opened 88¼c May, 89¾c June, 86¾c July, 84¾c August. Noon, 88¾c May, 89¼c June, 89¼c July, 85¾c August. Closed lower, 86¾c April, 87¾c May, 88¾c June, 86c July, 83¼c August.

MISCELLANEOUS.

NEW YORK, April 4.—Hops—Steady; quiet.

Coffee—Options firm and 10@20 points up; closed firm 30@40 points above yesterday's; better cables; fair business; sales, 39,250 bags, April, $15 95@16 15; May, $15 10@16 20; July, $16 30@ 16 45, spot Rio, firm; fair cargoes, 18¾c.

Sugar—Raw, firm; fair demand; sales, 2705 bags, centrifugals, 96 test, 5 5/16@5½c; 150 hogsheads, 87 test, 5¼c; 165 hogsheads Muscovado, 88 test, 5¼c; refined, dull.

Copper—Dull; lake, April, $14 50.

Lead—Firm; slight advance; domestic, $3 67½.

Tin—Quiet; spelty, Straits, $19 25@19 50.

Petroleum opened steady at 91¾c and closed weak at 93¾c.

Bar silver, 96¾c.

Mining quotations closed: Amador $1, Aspen $16 25; Caledonia $1, B. H., Consolidated California & Virginia $8, Deadwood $1 50, El Cristo $1 60, Gould & Curry $2 10, Hale & Norcross $8, Homestake $7 50, Horn Silver $1 40, Iron Silver $5, Mexican $1 10, Mutual $1 40, Ophir $5, Savage $2 45, Standard $1, Sullivan $1 50, Union Consolidated $3, Yellow Jacket $3 10.

FOREIGN MARKETS.

BREADSTUFFS GRAIN RETURN.

LONDON, April 4.—Weather throughout England is spring-like. Since last report three wheat cargoes have arrived, two have been sold and twelve now remain waiting orders. Wheat cargoes off coast are a turn dearer. Wheat cargoes on passage and for shipment are improving. English country markets quiet.

LIVERPOOL, April 4.—Spot wheat opened firmer; Options shade higher. No. 1 California, 7s 4d April, 7s 4½d May and June, 7s 5½d July, 7s 6¼d August, 7s 5½ September.

PARIS, April 4.—Spot wheat and flour firm. French country markets slow.

LIVERPOOL GRAIN MARKET.

LIVERPOOL, April 4.—Wheat—Steady; demand poor; holders offer moderately; California, 7s 4½d (6.78 ed per cental.

Corn—Firm; demand, fair.

SHIPPING INTELLIGENCE.

Stone in the Kidney.

I was first taken with sharp pains in the lower part of my bowels in the region of the bladder. Shortly blood appeared with my urine, and a few weeks later I had an attack of gravel. I tried a number of doctors. One said it was gravel, another

Inflammation of the Bladder,

and another stone in kidney. For three months I was under the care of an eminent doctor at Albany, in constant growing worse, went home to die. At this time I was induced to try Dr. David Kennedy's Favorite Remedy, of Rondout N. Y., and am now robust and strong. A remedy which can do this for one so near death as I was should be known everywhere. I tell this simple truth to all who suffer, others advised as I was to use the Remedy.—C. W. Brown, Petersburg N. Y.

DR. KENNEDY'S FAVORITE REMEDY,

Made at RONDOUT, N. Y., $1, 6 for $5

SNELL, HEITSHU & WOODARD, Portland, Oregon, Agents.

THREE SSS MEN

No Mercury, No Potash,

Or any other Mineral Poison.

It Nature's Remedy, made exclusively from Roots and Herbs.

It is perfectly Harmless.

It is the only remedy known to the world that will ever yet *Cured contagious Blood Poison in all its stages*

It cures Mercurial Rheumatism, Cancer, Scrofula, and other blood diseases heretofore considered incurable. It cures any disease cause. from impure blood. It is now prescribed by thousands of the best physicians in the United States, as a tonic. We append the statement of a few:

"I have used S. S. S. on patients convalescing from fever and from measles with the best results. J. N. CHISEY, M. D., Ellaville, Ga."

BREMEN, GA.—Willie White was afflicted with scrofula seven years. I prescribed S. S. S., and to-day he is a fat and robust boy. FLEMING FLEMING, M. D."

RICHMOND, VA., Dec. 15, '88.—I have taken three bottles of Swift's Specific for secondary blood poison. It acts much better than potash or any other remedy I have ever used.

D. F. WINFIELD, M. D.,
Formerly of Sussex Co., Va.

DR. E. J. HALE, the well known druggist and physician, of Nashville, Stewart County, Ark., writes: "Having some knowledge as to what S. S. S. is composed of, I can safely recommend it as the remedy for all skin diseases, in addition to which the same may be."

We have a book giving a history of this wonderful remedy, and its cures, from all over the world, which will convince you that all we say is true, and which we will mail free on application. No family should be without it. Write us about your case, and our physicians will advise with you by letter, in strict confidence. We will not deceive you knowingly.

For sale by all druggists.

THE SWIFT SPECIFIC CO.,

Where Ignorance Is Bliss, Etc.

New York Sun.

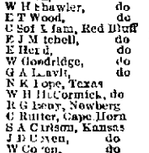
Mrs. Littlebrain—I never knew you were an artist till the other evening. You can't deny it. I heard you tell Mr. Doubleace that you sent some drawings to Mr. Lottery, of Louisiana, and afterwards painted a red town. Now I think you might do something for our own house. (Weeps)

A Cough is Quickly Cured

By using Mother Cary's (Eucalyptus) Gum Tree Cough Syrup. It does not affect the stomach or bin. For sale by Seldmore & Co. agents, 151 First street, Portland, Or.

The most common cause of sickness among children is disordered bowels. A little Ayer's Cherry Pectoral and a variety of symptoms are often present. Something to open the bowels and tone up the stomach is usually all that is required. One dose of St. Patrick's Pills will do much good. They are safe in all cases. They are small, sugar-coated, easily taken, and contain no injurious substance whatever. Given at the proper time they always prevent sickness. Sold by L. Hummer & Co.

Through Pullman sleepers and dining cars; also second-class sleepers through to the East via Northern Pacific Railroad. Office, No. 121 First St., corner Washington.



WM. RADAM'S MICROBE KILLER.

Factory No. 10.

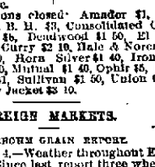
Is now established in San Francisco and will supply the Pacific Coast. All our patients and agents will now receive their supply from here, and not from Austin, Texas, as heretofore. This will save you 100 per cent. express charges. Our Office and Sale Depot is 1332 Market street, (opposite Odd Fellows' Building) where you can obtain full particulars free, and all further information about this most wonderful medicine. Any sick person, whatever their ailment, should read our circular. It will open the eyes of the most intelligent person—it will astonish you think—and you will soon comprehend that Microbes are the cause of all diseases, and "Microbe Killer" cures all previous diseases. Hundreds of testimonials show what it cures. Consumptives especially ought to investigate. Testimony received during one infringement suit held in District Court, Travis Co., Texas, is unimpeachable. Call or address

Call at our agent's, 51½ Morrison st., Portland, Oregon.

ELY'S CREAM BALM

Cleanses the Nasal Passages, Allays Pain and Inflammation, Heals the Sores, Restores the Senses of Taste and Smell.

TRY THE CURE.



HAY-FEVER

A particle is applied into each nostril and is agreeable. Price 50 cents, at Druggists; by mail, registered, 60 cents. ELY BROS., 50 Warren st., New York.
